ANNUAL REPORT
FOR FISCAL YEAR ENDING—MARCH 31, 1941

STAFF

Changes in personnel for the year resulting from enlistments, demise, and resignations are reported in Appendix 1 herein.

The death of Arthur H. O'Neil of the Woods Branch on November 5th, 1940 is regretfully noted. Mr. O'Neil was appointed July 19, 1906, from which time he gave loyal efficient service and his charitable kindly disposition will be sadly missed.

Enlistments in His Majesty's Armed Forces and resignations have reduced the staff and every effort is being made by those who remain to efficiently carry on the administration in the interests of essential war time economy.

Appendices 1, 2 and 3 include names, rank, date of appointment and salary rate of permanent officials of both inside or Head Office and outside services.

LEGISLATION

The first legislative enactment in the past session of the House was The Abitibi Power and Paper Company, Limited Moratorium Act which briefly, as the title suggests, provides for stay of foreclosure and sale proceedings and forbids further action without consent of the Attorney General pending consideration of the Report of the Royal Commission appointed November 1, 1940, and having in mind "that if the present rate of earnings maintain for some time to come the shareholders may well have a substantial equity in the property."

The Algoma Central and Hudson Bay Railway Company Act ratifies an agreement between the Crown and the Company for settlement of long overdue Provincial Land Tax arrears and railway fine charges and Corporation Tax.

The Northern Development Act was amended to provide authority to reduce, or write off, principal or interest charged against any lands. This includes Crown land with reference to Settlers' Loans or Liens.

The Provincial Land Tax Act was amended as set forth under "Provincial Land Tax Act".

The Railway Fire Charge Act was amended to make charges due and payable at the commencement of the fiscal year.

The Surveys Act was amended to provide for monumenting of subdivisions and to cure a redundancy in the Municipal Surveys Section.

SELECT COMMITTEE

As reported last year this body was created April 18, 1939, to investigate, inquire into and report on all matters pertaining to the administration of Natural Resources by the Department of Lands and Forests.

Their final report on the administration will be printed.

The findings and recommendations of the Committee may result in certain changes in method or otherwise but full review of the same is a matter that involves time and the Committee's report will consequently be dealt with more fully in the next Annual Report.

LAND TRANSACTIONS

The processes of alienation of Crown land are covered by the Public Lands Act and the regulations thereunder principally, and so far as this Department is concerned may be by outright sale or free grant, or in the case of rental by lease or License of Occupation. The Province contains an estimated 102,870 square miles of potential agricultural land. Its total land area is 363,282 square miles and it covers over 11% of the area of all Canada.

Lands are disposed of to settlers under both sale and free grant on modest terms set forth in the regulations to encourage land settlement and open and develop the country.

Islands and mainland are rented under lease in the Provincial Parks and Temagami Forest for summer resort purposes. Elsewhere Crown lands are sold outright or rented under License of Occupation for summer resort purposes.

In townsites Crown lots are sold, leased or licensed depending upon the local conditions.

In subdivided areas the Lands Branch deals with land transactions and in unsubdivided areas the Surveyor General deals with them as well as the islands in Georgian Bay.

In the Provincial Parks and Forests land has not been permanently alienated of recent years because of the purposes for which they were created.

To protect forest resources and game and fish is essential to conservation of the national wealth, and the protected parks and forests along with the game preserves provide reservoirs in effect for repletion of contiguous areas.

Controlled occupation of land in such areas under proper conditions has contributed to this.

There are areas also where prospective water-power or other development has required non-permanent alienation in the interest of eliminating possible future claims for compensation in connection with expropriations.

Appendix No. 14 sets forth a classified table of leases and Licenses of Occupation issued and includes the number of Patents issued during the fiscal period by classification and in total and all sales are reported in Appendices 12 and 13.

Comparative summaries of sales of Settlers' Lands in the past several successive fiscal periods are:

	1937-38	1938-39	1939-40	1940-41
Algoma	7	5	10	8
Cochrane.....	269	240	260	190
Kenora.....	4	3	5	21
Nipissing.....	12	8	4	10
Sudbury.....	70	50	43	42
Timiskaming	51	82	45	19
Thunder Bay.....	6	12	19	16
Sundry.....	23	16	9	44
Totals.....	442	416	395	350

This includes Free Grant sales.

Sundry includes Muskoka, Parry Sound and other Southern Ontario areas.

Free grant figures including grants to returned Soldiers are:

	1937-38	1938-39	1939-40	1940-41
Algoma	2	2	2	...
Kenora	86	64	79	48
Nipissing.....	14	10	11	9
Sudbury.....	17	13	13	3
Parry Sound.....	11	14	17	9
Thunder Bay.....	30	35	31	20
Muskoka.....	5	2	1	2
Rainy River.....	102	104	3	18
Sundry.....	49	33	39	34
Totals.....	316	277	196	143

The good land in free grant townships is obviously on the way to exhaustion. War conditions undoubtedly have contributed to the falling off of applications for Settlers' Lands but free grant applications only aggregate about half what they did four years ago and sales have consistently declined as well. It will be noted that free grant cancellations approximate the total locations four years ago.

In this connection it should be borne in mind that in the clay belts many lots have been abandoned in recent years.

One of the chief reasons is the control exercised over the cutting of pulpwood. Through the holdback system the Department has been consistently weeding out the pulpwood farmer and many of them have left the country.

The contrast between the early years a quarter of a century ago and today is evident in the steadily extending clearances visible from the railway and highway and the drainage of formerly wet areas and the effect of the sun on widely cleared areas is having its effect toward fulfilling the promise that this land so definitely holds.

The opening of the highway from Hearst to Nakina this year will bridge the last gap between the eastern and western road systems of the Province and complete a transcontinental motor route in Canada but for the present no farming land contiguous thereto will be opened to settlers.

There is still plenty of good land available to bona-fide settlers and a lot of it is accessible by good roads.

It is perhaps not too early to consider the possibilities of immigration as a result of the war. One fact outstanding is that there is plenty of room in Ontario on excellent land for agricultural workers in the north, to say nothing of the values of local water-power.

SUMMER RESORT LANDS

As a result of activities of the Tourist and Publicity Bureau of the Prime Minister's Department, inquiries for Summer Resort lands from the United States have increased and reflect a very definite desire to participate in some of the summer activities for which nature has so bountifully endowed Ontario. It is confidently expected that a large increase in American visitors to Ontario will result and this is bound to bring a great number who will own or rent their summer places here.

Appendix No. 13 shows the transactions in both mainland and island summer resort land of the Crown in the past year but it does not record the rentals, of which there are many.

These are included in Appendix 14.

PROVINCIAL LAND TAX

The Land Tax Branch of the Department of Lands and Forests is charged with the assessment and taxation of lands in the unorganized territories of the Province of Ontario under the Provincial Land Tax Act. The annual taxes collectible, of which 90% will be realized during the year for which they are levied, average approximately \$130,000.00. Since 1927, when taxes were first collected under the Act, the net revenue has been in excess of \$2,000,000.00. Revenue for the fiscal year ending March 31, 1941 amounted to \$169,608.77. The excess over and above the average collections represents a reduction in arrears of taxes.

In the administration of the Land Tax Branch a great deal of detailed work is involved. In each year some 23,000 tax bills are submitted to land-owners, and changes in the data shown on the land rolls and other records of the Branch are being constantly made. Under the Act a general assessment of Lands subject to taxation is required to be made every three years. Notwithstanding the large amount of detailed work carried on, it is to be noted that the cost of administration of the Branch has decreased. For the fiscal year ending March 31, 1941 it is calculated that the operating expenses of the Branch were approximately 6% of the revenue for that period.

The Provincial Land Tax Act was considerably amended at the Session of the Legislature in 1940, and the past year's operation of the Land Tax Branch would indicate that these amendments have assisted in clearing away many difficulties both for the Branch and for the taxpayers.

In 1941 it was found advisable to further amend the Act by more clearly defining the exemption from taxation of lands acquired under the Mining Act. Experience shows that many people have acquired title to lands under the Mining Act and have then proceeded to devote such lands for purposes far removed from mining. Such lands are now liable to assessment and taxation under the Provincial Land Tax Act.

Special legislation was enacted ratifying and confirming an agreement made between the Crown and the Algoma Central and Hudson Bay Railway Company dated the 18th day of March, 1940. At the time that the said Agreement was entered into the Railway Company was indebted to the Crown in respect of corporation tax, Provincial land tax and railway fire charges. Under the terms of the said Agreement the Company paid to the Crown a substantial sum of money and also reconveyed to the Crown some 36 townships containing approximately 850,000 acres of land which the Company had acquired under the various acts of the Legislature as railway subsidy land grants. As part of the consideration for the settlement the Crown has declared the balance of the railway subsidy land of the Company exempt from taxation under both the Provincial Land Tax Act and the Railway Fire Charge Act, so long as such lands remain in the ownership and possession of the Company.

RELIEF LAND SETTLEMENT

In September 1942, ten years will have elapsed since the original Settlers were placed under this Plan. While no new Settlers have received the benefits of the Plan since early in 1935, each year the subject has been fully reported and complete information is therefore of record in the Annual Report by years, and the data so compiled constitutes a very definite compendium on the subject of subsidized land settlement in Ontario.

This movement was the first of its kind in Ontario where not only the Federal Government assisted with the subsidies but the Municipalities also assisted, to their own benefit it must be admitted. While the Province was obliged to bear the cost of administration the remaining expense was shared. The total cost to the Province was under \$200,000.00. Three hundred and sixteen of the families placed remain. If all of the outlay were charged to those who remain without considering abandonees—the remainder—it would only average about \$600.00 each. That is a great deal less than the cost of direct relief would have been had the families remained in urban centres. It must be admitted that many families received relief after being placed from time to time and the cost of it is not included in the \$200,000.00, but the saving in taking care of these people is obvious as the improvement in their

condition and outlook over a period approaching ten years for the earliest of them.

It has been more or less clearly set forth that the human material was not always good. Naturally the Municipalities of origin were glad to be rid of trouble-makers, radicals and others who created difficulties. The beneficiaries themselves enthusiastically welcomed the opportunity and the change by which many more than those who still remain on the land benefited.

It will be noted that 20% of the total abandoned their properties or refused to proceed in the first two years. Since then, a considerable number have been reemployed and the latter number exceeds 18% of the total.

Some of the abandonees remained in the North, having found employment there. 52% of the total still remain on the land. Some of their children have come to maturity, married and remained in the North.

They have upwards of 5,000 acres of cleared land and have increased their stock and improved their homes in many cases.

There are marketing difficulties it is true, but the resourceful ones have faced them and have adapted themselves to pioneer conditions and made a living for themselves.

Under war conditions there may be a further exodus to get employment but it is impossible to make even a reasonable forecast.

Included in those recorded as still on the land may be some, who after obtaining Patent, sold out and returned to some urban centre. As the Departmental record ceases when Patent issues, or the settler pays the vendor of Patented land in full, a comprehensive figure is not available.

Undoubtedly the Plan has been greatly to the advantage of the bulk of those who remain on the land and it has contributed something to the opening up of the country.

In the administration of the work on occasion it was necessary to transfer stock or chattels from a settler who left to one who remained. In such cases where no cash was available a note acknowledged the debt. Some of these have not been paid. In other cases where private land was used it was necessary to advance the money to pay for registration of title.

It has been impossible to collect some of these items.

When the settler disappears he leaves little behind of any value and the property in many cases was of less value than when he got it. The vendor was often obliged to pay arrears of taxes on the property which reverted to him and as he could not be expected to pay more, was no source from which such unpaid fees could be recovered.

Final settlement was made with Ottawa in 1937 for the remaining balances due from the Dominion against our outlay.

Since then when abandonment involved seizure and disposal of chattels, building material or stock or when registration fees advanced recovered, or

notes for stock or chattels were paid, the following totals have been applied as recoveries:

1937-38.....	\$1095.65
1938-39.....	499.21
1939-40.....	1014.04
1940-41.....	284.78
Total.....	<u>\$2893.68</u>

PROVINCIAL PARKS

Directly under control of the Department through the resident staffs in each there are four Provincial Parks, dedicated to the principle of conservation, in timber, land, wild life and the enjoyment of the public.

Quetico and Algonquin have much in common. They are in the forest area. They are large. They shelter big populations of wild life and they are patronized by people who appreciate and enjoy the added charm of their remoteness.

Ipperwash and Rondeau, though small and far from identical in size; serve almost identical purposes. Being located in or adjacent to populated long established communities far from the forest area, and served by excellent motor roads, they provide holiday sanctuary for thousands of people who are permanent residents of sections of the Province from which the forest disappeared generations ago and with it fish and game as they are known in the forest areas.

Not only our own citizens but thousands of visitors from the United States patronize these Parks.

In all but Ipperwash summer cottage sites can be obtained on a rental basis.

Algonquin and Quetico offer fine fishing, canoe trips and camping and cottage privileges.

Rondeau offers duck shooting in the fall, fishing, and cottage sites.

Each year the Revenue and Expenditure of all are dealt with in Appendices 3, 4 and 7 and from time to time improvements are dealt with in narrative form.

In addition to the foregoing there is a group of Islands in Georgian Bay which constitute a Provincial Park known as Franklin Island Provincial Park, but as yet it is not operated like the others under a local staff. There is a commercial Tourist Camp within the limits of this Park.

Though in a Provincial Forest and not a Provincial Park the Timagami lakes are extensively patronized by vacationists. Many of the islands are held under lease for Cottage or Commercial Camp purposes and there is a local Steamboat Service. Highway No. 11 and the T. & N. O. Ry. cross this forest.

TIMBER ADMINISTRATION

As forecast in last years report, the revenue for the past fiscal year was increased as a result of larger markets and consequently extended bush operations.

Appendix No. 8 provides details of timber returned.

The annual cut which appears this year is the timber cut in the winter of 1940 returned during the spring and summer.

War needs and domestic housing enterprises and other construction, resulting from conditions and pay rolls brought about by the war, are bound to create extended markets if only temporary ones, and this will no doubt reflect itself on the Ontario lumber industry.

Canadian exports of lumber and flooring to the United Kingdom increased in 1940 to nearly 50% over 1939. The export of similar classifications to the United States also increased in the same period.

The Timber Control Board anticipates an increase in the business generally.

BUSH OPERATIONS

Reference to page 18 of last years report shows comparative figures for preceding years and as stated in the foregoing the details of returns from the bush appear in Appendix 8.

Timber Licenses and Saw-mill Licenses

As set forth in Appendix 10, a total of 901 Timber Licenses and Renewals issued covering rights to take Crown timber. The total area involved was 12,503 square miles.

All sawmills and Pulp and Paper mills are required to be licensed annually at nominal rates under the Mills Licensing Act. There were 1,254 of these in the year, many of them small portable outfits with under 5 M ft. B.M. per diem capacity.

Timber Sales

Appendix No. 11, shows details of all sales made in the fiscal period naming the purchaser, classifying species covered and giving the rates at which the sale was made.

The total number of sales was 147.

In the four previous years sales annually were:

1936.....	80	1938.....	142
1937.....	86	1939.....	89

It will be noted that 65 of the current sales were for simple pulpwood operations. In each case the proportion and prices are quoted as set forth in Appendix No. 11.

ORDER IN COUNCIL—Reductions—Inspection of Manufacturing Clause. The following verbatim copy speaks for itself:

Copy of an Order-in-Council approved by the Honourable the Lieutenant-Governor, dated the 10th day of May, A.D., 1940.

Upon the recommendation of the Honourable the Minister of Lands and Forests, the Committee of Council advise that in regard to sawlog and pulpwood operations conducted within the Province of Ontario up to April 1st, 1941, be subject to the following rates and conditions:

1. *Sawlogs*—That the reduced rates as obtained for the 1939-40 operating season and as established by Order-in-Council dated the 9th day of May, A.D., 1939, be continued for the 1940-41 operating season, but shall apply only to timber sold by public tender prior to September 11th, 1934, and in no instance be less than Crown dues.

2. *Sawlogs*—That the Manufacturing Conditions of the Crown Timber Act be suspended insofar as they apply to hardwood logs cut for export to any part of the British Empire, Authority is found in the Crown Timber Amendment Act of 1939.

3. *Damaged Timber*—That the Minister be authorized to fix rates for fire damaged, insect damaged and wind-thrown timber on both licensed and unlicensed Crown lands, as follows:—

Spruce and Balsam Pulpwood—	a minimum of 50c per cord,
Log Timber	—such rates as would be commensurate with the value of the timber damaged.

4. *Pulpwood*—That the Manufacturing Conditions of the Crown Timber Act, insofar as they apply to pulpwood, be suspended in order to permit the export of pulpwood of any kind cut from leased or licensed Crown lands during the 1940-41 operating season, and that terms and conditions shall be as hereafter set out:

- (a) The contract or certified copy of the contract between the producer and final purchaser must be submitted for the approval of the Minister. The contract must set out prices, terms and conditions relative to the purchase.
- (b) All pulpwood to be exported under and by virtue of the authority recommended to be granted hereunder shall be subject to the production of evidence satisfactory to the Minister, to be furnished before shipment clearance is granted, that the pulpwood will not be used in the production or manufacture of newsprint nor will it be used in the production or manufacture of pulp to be used for the production or manufacture of newsprint.
- (c) Local labour must be used in connection with the work or cutting or preparing the pulpwood for export and the wages paid must be fair

and reasonable and in accordance with wage schedules where established.

- (d) Unless otherwise provided for in a previous agreement or authority, Spruce Pulpwood cut from Crown lands for domestic use shall be subject to a reduction of 40 cents from the regular Crown dues of \$1.40 per cord. Spruce Pulpwood cut from Crown lands and authorized to be exported shall not be subject to any reduction from the regular Crown dues of \$1.40 per cord.

Unless otherwise specifically provided for in a previous agreement or authority, there shall be imposed on all Spruce and Balsam Pulpwood exported an export levy of 25 cents per cord.

- (e) On any area being operated for the purpose of cutting pulpwood for export there shall be, in addition to the protection charge of \$6.40 per square mile, a ground rental charge of \$5.00 per square mile.
- (f) Where contracts for the export of pulpwood are approved there shall be required from the operator such security as may be deemed advisable to assure payment of the dues and charges, and the meeting of any obligations respecting cutting operations.
- (g) Before clearance for export is issued, all Crown charges must be paid in full.

The Committee further advise that the Minister be authorized to treat with pulpwood concessionaires or timber licensees in the Province of Ontario for the purpose of enabling those pulpwood operators who are in possession of contracts for the sale of export pulpwood to operate on the concession or limit upon such terms as may be mutually agreed upon between such concessionaire or licensee and such operator, subject to the approval and direction of and the issuance of permission by the Minister of Lands and Forests.

Certified,

(Sgd.) C. F. BULMOR,

Clerk, Executive Council.

EXPORT PULPWOOD

The principle involved in permitting export of pulpwood will no doubt be dealt with in the forth-coming report of the select Committee. In the last calendar year the export figures are:

	<i>From Crown Lands</i>	<i>From Other Lands</i>	<i>Total Cords</i>
1940.....	360,286	169,478	529,764

SURVEYS

In Part II of this report will be found a record in detail of the surveys in the past fiscal period along with certain narrative comment on the subject of surveys at large.

RADIO

The Department operates a Commercial radio telephone and telegram service as well as the system for strictly service purposes and details appear in Part III of this report.

Air Service—Fire Protection—Reforestation

These branches of the Departmental administration are carefully dealt with in Part III of this report.

REVENUE AND EXPENDITURE

In Appendices 3, 5 and 6, collections will be noted under classified headings by source. These are largely self-explanatory and therefore indicate the origin of the money. Among them from time to time are:

Clergy Lands—Common School Lands—University Lands.

Revenues from these sources have been, in effect, subsidies to education in Ontario.

In its early days, with its revenue possibilities very limited and an increasing population requiring education, the natural resources and particularly land exerted their influence in enabling the educational authorities of the day to finance the necessary projects.

The Grammar School Fund was created by 2 Victoria, Chapter 10, 1839, which provided that revenue collected for certain specifically designated lands should be distributed by the Council of King's College among the grammar schools of Upper Canada. 4 and 5 Victoria, Chapter 19, 1841 enacted by the first parliament of the United Province covered the same ground but it placed the distribution of the funds to the grammar schools under the Governor in Council. 22 Victoria, Chapter 63, 1859 gave further specific authority for administration of the Grammar School Fund.

The Common School Fund was created by 12 Victoria, Chapter 200, 1849, which was designed to produce or create from the sale of public lands a fund of sufficient size to yield one hundred thousand pounds annually for the support of Common Schools and the establishment of Township and Parish libraries.

Under Sec. 14, Chapter 159, of the Public Lands Act of 1853 provision was made to use some of the common school funds for local improvements. The Order-in-Council of December 7, 1855 which authorized the practice was rescinded March 6, 1861.

Confederation and the British North America Act brought about further changes.

Sec. 142 of the B.N.A. Act provided that settlement between Upper and Lower Canada of debts, credits, properties, etc. should be arbitrated and the arbitrators in an award of September 13, 1870 declared the grammar school fund and the improvement fund to be the property of Ontario and the Common School Fund to be held by the Dominion Government and distributed to Ontario and Quebec according to population and that money received by Ontario after June 30, 1867 should be paid to the Dominion and apportioned to the Provinces by them.

Payments to the consolidated revenue of Ontario are covered by Chapter 20, Sec. 2, R.S.O. 1914.

Copy of a Message Communicated Severally to Both Houses of the Parliament of Upper Canada by the President Administering the Government of the Province on Monday, 18th June, 1798.

York, 18th June, 1798.

PETER RUSSELL, President.

To the Honourable the Legislative Council and the House of Assembly:

The President has great satisfaction in being authorized to communicate to the Legislative Council and the House of Assembly, that His Majesty has been graciously pleased to take into his Royal consideration their petition, "humbly imploring His Majesty that he would be graciously pleased to direct His Government in this Province to appropriate a certain portion of the waste lands of the Crown as a fund for the establishment and support of a respectable Grammar school in each District thereof, and also of a College or University for the instruction of youth in the different branches of liberal knowledge," and being always ready to show his parental regard for the welfare of his subjects in the furtherance of so important an object as the instruction of youth, and to assist and encourage the exertions of his Province in laying the foundation for promoting sound learning and a religious education, he has condescended to express his most gracious intention to comply with the wishes of his Legislature of the Province of Upper Canada in such manner as shall be judged most effectual. First by the establishment of free Grammar schools in those Districts in which they are called for, and in due process of time by establishing other seminaries of a larger and more comprehensive nature for the promotion of religious and moral learning and the study of arts and sciences. With this view the President is directed to consult the Members of His Majesty's Executive Council, and the Judges and Law Officers of the Crown in Upper Canada, and to report to the Secretary of State in what manner and to what extent a portion of the Crown Lands may be appropriated and rendered productive towards the formation of a fund for the above purposes, out of which His Majesty may, according to his pleasure, allot such salaries as he shall judge proper for Schoolmasters of such schools, who are to be appointed by His Majesty's Governor, or the person administering His Majesty's Government within the Province for the time being, subject to His Majesty's approbation signified thro' one of his principal Secretaries of State.

(Signed) P. R.

Message to the House of Assembly—Friday, 29th February, 1828.

P. MAITLAND—

The Lieutenant-Governor transmits to the House of Assembly, in compliance with its address, a copy of the Royal Charter for erecting the University of King's College in this Province.

The Lieutenant-Governor further informs the House that His Majesty has been pleased to grant as endowment for the University, two hundred and twenty-five thousand, nine hundred and forty-four acres of the Crown Lands, and to appropriate from the revenues of the Crown the sum of one thousand pounds sterling, per annum, for sixteen years for the erection of the buildings, and also that several of the religious societies in England have contributed to the institutions by donations of money for the purchase of books, and by the foundation of scholarships for missionaries to the Indian tribes.

Government House, 29th February, 1828.

In 1798 the Legislative Assembly set aside 549,000 acres of land as an endowment of higher education in Upper Canada. Later on, upon re-surveying, and some minor changes in the location of the lands, the total acreage was found to be 550,274. Of this amount 190,573 acres were for Grammar Schools, 63,966 acres for Upper Canada College, leaving a balance of 295,735 acres for a provincial university. When the charter was granted to King's College in 1828, however, the endowment made was only 225,944 acres.

It was further agreed in 1828, that the sum of £1,000. per annum should be paid to King's College for 16 years, to aid in the erection of buildings. This annuity was paid for $4\frac{1}{2}$ years and then suspended.

In 1895 a committee reported on the matter of the endowment to the Senate of the University of Toronto and representations were made to the Provincial Government with the result that in 1897 an Act was passed (60 Vic., cap. 59) granting the University the sum of \$7,000.00 per annum forever in extinction of all claims which the University might have in regard to the alleged shortage in their endowment, and certain other minor claims which they made against the Crown.

In the same Act 6 townships were set apart in Northern Ontario, for which separate books were to be kept by the Department of Lands and Forests, and all money received from sales of land therein to be paid to the Bursar of the University.

Of the 225,944 acres which were granted to the University in 1828, nearly all were sold to provide funds. All that is now left of the original endowment are a few acres in Port Hope valued at \$6,895.00 and other lands in various townships valued at \$152.00. The lands which were sold yielded the University approximately \$1,500,000.00.

In 1907 the Government granted the University the Old Parliament Buildings site on Front Street, comprising slightly over 9 acres, and valued at \$200,000.00. The University received rent for this property from the Grand Trunk Railway Company for a year or two and then sold it to that Company, the proceeds being for the erection and equipment of certain buildings.

Clergy lands or reserves were created in Ontario when the original Canadian Colony was divided into Upper and Lower Canada and they were set apart for the maintenance of religion and the diffusion of christian knowledge.

3 and 4 Victoria, Chapter 78, 1840 passed to make clear their purpose and effect and remove any doubt as to interpretation.

George 3, Chapter 31, Sec. 36, provided in the first place for them and subsequent sections specified their use.

George 4, Chapter 62, Sec. 7-8, further elaborated.

The collections from all these sources now, however, are small and irregular and indicate their exhaustion.

Also included in the classified revenue statement—Appendix 3—is revenue from the Back to the Land investment. The amounts that have been shown under this heading each year may properly be considered salvage as they represent proceeds of stock, equipment or chattels, left behind by Relief Land Settlers who clear out, or similar items seized and sold to prevent total loss. The revenue under Forests service is largely perquisites paid by staff.

Lac Seul storage dam revenue is due to the Lac Seul Conservation Act 1928 and an agreement between the Government of Canada and the Government of Ontario:

“Whereby Ontario shall construct a Dam for the purposes of Conservation, regulation and power at Lower Ear Falls, at the outlet of Lac Seul on lands owned by the Crown in the right of the Province of Ontario, which said Dam Shall be absolutely owned, controlled and operated by Ontario.

By the terms of the Agreement, the Government of the Dominion of Canada shall reimburse the Government of the Province of Ontario to the extent of three fifths of the Capital Cost of the dam, and also after the Dam has been completed and put into operation, they shall pay to Ontario, interest at the rate of five percent per annum on the two fifths of the Capital Cost of the Dam borne by the Province of Ontario and shall also pay the whole of the Cost of Maintenance and operation of the Dam until powers on said waters have been developed and put to use.”

Disbursements as classified in Appendix 7 are largely self-explanatory.

The actual cost of forest fire fighting is classified in a comparative table in Part III of this report as a breakdown covering this particular work. It is part of forest service cost.

The outlay on clearing townsites inevitably brings to mind the fires at Haileybury and New Liskeard which were fed by slash and brush too close to the municipal limits. Where such hazards are on Crown land they must be removed in the interest of safety.

Insect control and tree disease activity is essential and conducted under W. R. Haddow.

The money spent for flowing easements was in connection with Winnipeg River water levels where, by arrangement with Manitoba and the Dominion,

settlements were made with claimants. The complete report on the settlement is in the office of the Inspector of Surveys.

Long Lac Water Course revenue refers to and has its origin in agreements between the Crown and Pulpwood Supply Company, Ltd., dated March 31, 1937, and July 6, 1937 recorded on pages 93 and 99 of the Annual Report for 1938, and is part of the plan to amortize the outlay on the diversion of Long Lac and tributary waters, whereby power resources have been increased and inaccessible pulpwood rendered marketable.

Other items of revenue are self-explanatory.

SURVEYS BRANCH

Appendix No. 16

REPORT OF THE SURVEYOR-GENERAL

It is more or less generally recognized that Ontario is singularly endowed with a variety of exceptional topographical features, altitude, and material wealth, within its geographical limits, and with them all land surveys are intimately involved.

The limited surveys provided by early explorers with primitive equipment led the way in what we know as Ontario, to the unique development that has taken place already and to the further development that is definitely indicated for the future.

During the period since the Conquest, the provincial boundaries have expanded and contracted from time to time.

Excepting the brief period when the south limit of the Canadian colony extended to the confluence of the Ohio and Mississippi Rivers, the south limit of the present Province was along the Great Lakes. The north limit changed from time to time from the height of land to the Albany River, and thence to Hudson's Bay and the present boundary of Manitoba. The west limit was seriously in dispute with Manitoba for a period many years ago and the determination of the east limit was settled in recent years between Ontario and Quebec.

As the land was shorn of its timber and opened to the sun, cultivation and industrial enterprise, the work of the surveyor extended, pressing ever northward, till we have, today, a population of, roughly, four million souls, ten per cent of which is found north of the French River, a territory once described as a rocky, barren waste.

It is only of recent years that the benefit of observation and photography from the air has been available as an aid to the laborious processes of specific area delineation on the ground.

In a geographical expanse of 412,589 square miles of land and water, approximately three and one-half times as large as the British Isles, we now have:

In addition to these, numerous meridian and base lines have been surveyed in the northern part of the Province, which, together with railways,

roads and highways, provide the fundamental requirements essential for aerial mapping in the vast and sparsely settled portions of Northern Ontario.

The rich and great mineral lands of the Province have attracted thousands of prospectors, with the result large numbers of mining claim surveys are made each year, which, in turn, provide material for accurate mapping.

The geographical maps of the Province show how the spaces were filled in as the tide of population flowed. They show a variety of survey, resulting from the exigencies and conditions of time as it passed under legislation and regulations suited to the times.

For descriptive purposes Ontario is classified into two areas, Northern and Southern, with the French and Mattawa Rivers forming the line of demarcation. Northern Ontario, which is sometimes referred to as "New Ontario", contains in the neighborhood of 363,000 square miles, and in this part of the Province the township surveys are based on meridian and parallel lines of latitude. In Southern or "Old Ontario", which contains some 50,500 square miles, the townships surveyed in the northern, central and eastern portions were, generally speaking, based on lines run parallel and at right angles to Lake Ontario and the St. Lawrence River, with several townships fronting on the Ottawa River being laid out at right angles thereto. In the southwestern portion of the Province the orientation of township surveys was made to conform to boundaries established by Indian Treaties, Colonization Roads, and by lines drawn parallel and at right angles to the contour of the lake shores, which accounts for the irregularity in the orientation of the townships.

In the year 1783 the settlement of lands in Canada under tenure of free and common socage was first introduced. In this year United Empire Loyalists located along the banks of the St. Lawrence and its lakes, in what is now the Province of Ontario.

The first British surveys were made in 1785 when John Collins, Deputy Surveyor-General, instructed Lewis Knotte to survey lots of 200 acres in the first two or three Concessions of the Townships of Hallowell and Ameliasburgh, and in the same year P. McNiff was instructed to lay out the front line of the second and third Concessions in Lancaster Township, and of the second, third and fourth Concessions in Osnabruck and Williamsburg Townships, leaving roads 40 feet wide between each Concession, and between every fifth lot. The lots contained 200 acres, being 19 chains wide by 105.27 chains deep, posts being planted at the front angles of each lot. The Concession lines and Township boundaries only were run in the original survey. Shortly after this the width of road allowances was changed to 66 feet, and the width and depth of the lots changed, the area of the lots still being 200 acres.

The fronts of the Concessions were generally run approximately parallel to the river bank or lake shore and the sides of the lots were generally at right angles to the Concession, with some exceptions. This system was used, with some variation in the width and depth of the lots until 1818, except on the south shore of Lake Ontario between Niagara and Hamilton, where lots were 100 acres, 20 chains wide by 50 chains in depth, with one chain road allowance between Concessions and between every second lot. All the side lines were run and the Concessions were not run.

In 1818, what is known as the Double Front System of Survey was adopted. In this system both sides of the road allowance between Concessions were posted, marking the fronts of the half lots in each Concession, the half lot extending to the centre of the Concession. These lots were laid out with a frontage of 30 chains and a depth of 66.67 chains, and contained 200 acres.

In none of the foregoing systems were any check or proof lines run between the Concessions.

On March 27th, 1829, on the report of William Chewett, Surveyor-General, an Order-in-Council was passed inaugurating the first system of Sectional Surveys. The lots were 30 chains wide and the Concessions 66.67 chains in depth with an allowance for road between each alternate Concession and between every third lot.

The centre line of the road allowance between each alternate Concession was run and posts planted on the survey line and at 50 links on either side, making the survey line the front of the two adjoining Concessions. The centre line of the road allowance between every sixth lot was also run, making blocks of 2400 acres, 181 chains x 133.34 chains. This system was continued to 1851. During this period, however, a modification of this system was made at the request of the Canada Company in the survey of the Company's lands in their Huron Tract.

This system reduced the sections to 1000 acres, ten lots of 100 acres each, lots 20 chains x 50 chains, sections $1\frac{1}{4}$ miles square. These surveys were performed by the Government under the system suggested by the Canada Company at a charge of 6£ per 1000 acres or 3c. per acre. The Government adopted this system for Crown land surveys in 1851.

In 1859 the six mile square Townships, divided into blocks approximately 1 mile square, were introduced in the area north of Lake Nipissing and the French and Mattawa Rivers. At first these were surveyed under the sectional system, each 1 mile square block being numbered, there being 36 sections in each Township. These were divided into quarter sections of 160 acres and posts were planted at half mile points on all survey lines, to mark the corners of the sections and quarter sections. Subsequently, the blocks were divided into two lots of 320 acres and each Township contained six Concessions of twelve lots in each Concession. The front of each Concession was posted for the lots on that Concession and the lots were disposed of as half lots of 160 acres, thus reverting to the single front system of survey.

By an Order-in-Council of April 24th, 1906, the system of nine mile square Townships was adopted for the clay belt in Northern Ontario. The Townships were nine miles square, laid out with road allowances between each alternate Concession and every sixth lot with double fronts on each alternate Concession. The lots were 25.25 chains in width and 59.50 chains in depth, each lot containing 150 acres, there being 12 lots in each block, containing 1800 acres. These Townships contained 12 Concessions with 28 lots in each Concession.

To summarize, the various systems under which townships have been laid out in the Province of Ontario since the year 1785, are as follows:

- (a) Single Front.
- (b) Front and Rear.
- (c) Double Front.
- (d) 2400 acre section.
- (e) 1000 acre section.
- (f) 640 acre section or six mile township.
- (g) 1800 acre section or nine mile township.

In Ontario no person may act as a Surveyor unless authorized to practice as a Land Surveyor, according to the provisions of "The Land Surveyors' Act", or so authorized before the passing thereof, according to the laws then in force, and unless registered under the provisions of the said Act.

In the annual report each year certain of the more important surveys are dealt with by publishing, verbatim, the reports of the Surveyor responsible for the work, and these have been printed for many years. They provide an imperishable record of conditions found by the Surveyor, and consequently an invaluable reference record.

From this source most intimate data will be permanently forthcoming to the advantage of present and future administrators and the public alike.

The outlay is classified and all of the work performed is recorded annually, though the details are not published to cover the smaller and less important ones.

In limited space it is not possible to formulate a complete retrospective of the surveys of Ontario from the days and records of the early explorers, but reference to previous annual reports and the accomplishments to date as reflected by the official plans testify to the magnitude of the Surveyor's task since the woodsman's axe dropped the first tree in what we now so proudly call Ontario.

The task, however, has only begun. Vast areas of the King's domain have still to be delimited and described by the Surveyor, and this work continues annually as most urgently required, the most of it at public expense.

The following survey work was carried out under instructions from this Branch, during the year ending March 31st, 1941:

Confirmation survey of Summer Resort Locations on Lake St. Peter, Township of McClure, by F. W. Beatty, O.L.S., Pembroke.

Summer Resort Locations in the vicinity of Armstrong, District of Thunder Bay, by R. F. Dynes, O.L.S., Sioux Lookout.

Summer Resort Locations on Boshkung and Kushog Lakes, Township of Stanhope, by Speight, vanNostrand, Ward & Anderson, O.L.S., of Toronto.

PART III

FORESTRY BRANCH

Appendix No. 18

1.—FOREST FIRE PROTECTION

(1) *Legislation*

There were no changes in the Forest Fires Prevention Act nor the regulations thereunder during the year.

(2) *Organization and Personnel*

Two enlistments in the active service forces necessitated the appointment of acting District Foresters in the following Districts:—Port Arthur, July 16th; Fort Frances, August 23rd. The District Forester in the Cochrane District was superannuated on September 1st and no new appointment has been made.

Four Chief Rangers enlisted in the active service forces necessitating the appointment of acting Chief Rangers in the following divisions:—Longlac, July 23rd; Pays Plat, July 24th; Georgian Bay East, July 28th; Sudbury South, August 20th.

The Timagami East and Latchford divisions were amalgamated on October 1st. The former Chief Ranger at Latchford was transferred to Timagami as Chief Ranger of the amalgamated divisions to be known as the Timagami East division. No replacement was therefore necessary for the Chief Ranger of the Timagami East division who enlisted on July 16th.

New Chief Rangers were appointed to the Franz division, August 21st and to the A.C.R. division, February 1st

Townships M, I and E were transferred from the Mississagi East division to the Webbwood division; townships 3, 4 and B were transferred from the Sudbury South division to the Mississagi East division, and township A was transferred from the Sudbury South division to the Webbwood division on June 21st. The township of Capreol was transferred from the Sudbury South division to the Sudbury North division on February 28th.

Under a new arrangement of the Sault Ste. Marie District, effective January 1st, the Mississagi South division disappeared and the A.C.R. and Blind River divisions adjusted and a new division to be known as the Sault division created.

The boundary line between the A.C.R. and Sault divisions is as follows:—Commencing at the intersection of the north boundary of township 29, range XVI, with Lake Superior; thence easterly along the northern boundary of townships 29, 28, 27, 26, 25, and 24 in range XVI to the north-easterly angle of township 24, range XVI; thence northerly along the westerly boundary of township 23, range XVII, to the north-westerly angle thereof; thence easterly along the northern boundary of townships 23 and 22, range XVII to the north-easterly angle of township 22, range XVII; thence southerly along the eastern boundary of township 22, range XVII and township 22, range XVI, to the south-easterly angle of township 22, range XVI; thence easterly along the northern boundary of township 8H and 8G to the north-easterly angle of township 8G.

The boundary between the rearranged Blind River division and the newly created Sault Division is as follows:—Commencing at the north-easterly angle of township 8G; thence southerly along the eastern boundary of townships 8G, 7G, 6G, 5G, 4G, 3G, to the south-easterly angle of township 3G; thence south-westerly in a straight line to the south-westerly angle of township 196; thence easterly along the southern boundary of township 196 to the south-easterly angle thereof; thence southerly along the eastern boundary of townships 195, Otter, Haughton, Bridgland, Kirkwood and due south from the south-easterly angle of the township of Kirkwood to the north channel of Lake Huron.

The Chief Ranger's headquarters for the A.C.R. division was transferred from Sand Lake to Wawa on January 1st.

RADIO SERVICE

The supervision of the radio communication system was assumed by the forest protection service on November 1st.

Radio communication is used mainly by the forest protection service for communication between lookout towers and to link up telephone ground communications where telephone facilities are not available. In addition to the main service, radio supplies air-to-ground communication for aircraft in flight for rapid reporting of fires in districts incompletely covered by lookout towers. Commercial radio stations are maintained by the Department at four points,—Kenora, Sioux Lookout, Red Lake and Pickle Lake, under an agreement with the Canadian Marconi Company who supply the radio equipment and receive a portion of the revenue over the commercial system.

Forest Protection Radio Service

One hundred and sixty radio stations were operated for forest fire protection purposes alone during the fiscal year.

(8) Hazard Disposal

Hazard disposal during the year was confined to brush burning in connection with logging operations in the Timagami section. A similar program was started on a timber sale on the east side of Lake Nipigon. These operations are on a commercial scale and are designed to show the possibilities of brush disposal in connection with logging operations. Should slash disposal prove practicable on logging operations generally the fire hazard over the province would be considerably reduced.

(9) Travel Permits

A total of 10,162 travel permits were issued covering 33,350 persons.

(10) Operating Permits

A total of 2,684 operating permits were issued covering 46,726 men employed. There was a marked reduction in mining operations and miscellaneous. Woods operations however showed a substantial increase from 709 permits covering 27,793 men employed the previous year to 816 permits covering 34,934 men employed during the current year.

Appendix No. 19

PROVINCIAL AIR SERVICE

The War has occasioned many changes in the Ontario Provincial Air Service during the past fiscal year. Since September of 1939 our flying staff has been affected to the extent of 46%, as follows: seven enlisted with the Royal Canadian Air Force or the Active Forces, one was loaned to the Galt Aircraft School, where he has remained to take charge of the entire school, one was loaned to the Department of Transport, where he has remained, and two resigned to take positions with Elementary Flying Training Schools. Our engineering staff was not affected to quite the same extent numerically, but we did lose some of the oldest and best trained of our staff, as follows: four enlisted with the Royal Canadian Air Force, and one resigned to take a position in charge of maintenance in one of the Elementary Flying Training Schools. Of the four who enlisted, one is now a Squadron Leader in charge of all aircraft and engine maintenance at Trenton, a second has been promoted to the rank of Squadron Leader, and is in charge of aircraft and engine maintenance at Camp Borden, a third was assigned to the A. I. D. staff of the Royal Canadian Air Force, and is now the Resident Inspector at Fleet Aircraft, Fort Erie, while the fourth enlisted as a Warrent Officer, and is in charge of trade testing applicants for enlistment in the Royal Canadian Air Force at Toronto. We also lost our Stores Superintendent, who is now connected with the Stores Department of the Royal Canadian Air Force at Ottawa.

In addition to the above, the Service has loaned men and equipment, as occasion necessitated and warranted, to the Department of Transport and to the Department of Munitions and Supply. At one time, two of our aircraft and eleven of our staff were on loan to the first mentioned Department, assisting in a preliminary survey of airport sites for the Empire Air Training Scheme, and no doubt, many of the sites examined have now been converted into airports. We also loaned one of our welders and our Assistant Plant Superintendent to the Department of Munitions and Supply, the former remaining with them for a period of four months, and the latter for a period of seven months.

We have been very fortunate in being able to obtain competent replacements for most of these men, but the demands being made by the Nation upon the flying industry in Canada are not only being felt in this Service, but will probably continue to be felt. It may ultimately require some reconstruction of our policy, but we are prepared to assist any of the Federal Departments of Government in the prosecution of the war effort in so far as our resources and responsibilities will permit.

From the standpoint of fire hazard, nature was again kind to us. Frequent rains throughout the Eastern Division kept the fire hazard in that section to a minimum, and although rain was not so frequent in the Western Division, only three fires reached the out-of-control stage during the entire year.

The policy which this Service has been following for the past four years has proven to be sound and well-founded. Following a discussion with the

various District Foresters and the Senior officials of the Department of Lands and Forests, it was decided to embark on a policy of expanding our transport fleet rather than our detection fleet. The addition of observation towers throughout most of the Districts has materially reduced the necessity for detection patrols, and the tendency of the work of this Service has been more and more in the direction of transportation and less and less in the direction of detection. The Department has to-day sixteen transport and semi-transport aircraft, eleven detection aircraft, and one intermediate type capable of carrying a pilot and two passengers. This increase in the number of transport aircraft has enabled the Department to provide quick and effective action on embryo fires, so that very few have reached the out-of-control stage, and the saving thus afforded the Department has justified the policy which this Service has been following, as well as affording a substantial saving in fire fighting costs, and a tremendous saving in burned timber.

We are, however, faced with a serious problem, as mentioned in my annual report of last year. Every aircraft manufacturer in both Canada and the United States is to-day geared to wartime production for military purposes, and we find ourselves in the position of not being able to purchase new aircraft of any kind. We have, therefore, been compelled to resort to the purchase of such suitable used equipment as may from time to time be offered to us. In this regard, we were fortunate in being able to procure two Wasp powered Stinson Reliant aircraft of the same type as this Service has been using for the past three years. One was purchased from the Irving Oil Co. Ltd. in St. John, N.B., and the other from a private owner in Seattle, Washington. In the case of the latter ship, we express to the Federal Government on behalf of this Service our appreciation of their kindness in amending their regulations in such a way as to make it possible for us to import a used American aeroplane, against which there had formerly been an embargo. There is little doubt that circumstances will compel us to follow this policy for the duration of the war. The Service also purchased a used Vedette Flying Boat from the Alexis Nihon Co. of Montreal, P.Q., and this is now being reconditioned for service this year. We will, however, be without the services of our D. H. 61, as we are unable to obtain necessary engine replacement parts.

IMPROVEMENTS

During the past fiscal year, we completed improvements to our Hangar and buildings at Sioux Lookout, which work was started in the previous year; and in addition to this, replaced about two-thirds of our wooden slipway at Sault Ste. Marie. This slipway had reached such a state of disrepair that it was considered to be unsafe for aircraft, so two-thirds of the old wooden structure was removed, concrete retaining walls poured around the outside, and the inside filled with gravel and slag, after which the whole was well packed, and a five inch re-inforced concrete slab poured over the top. The Entire improvement was carried out under the supervision of the Department of Highway engineers, and should be permanent.

Other repairs, painting and maintenance was carried out as necessary, but the program was not extensive, and it is not anticipated that it will be enlarged upon until after the war is over.

WINTER OPERATIONS

Having regard for an extremely heavy reconditioning program, all aircraft were withdrawn from winter operations with the exception of a Stinson located at Algonquin Park. It is our opinion that the withdrawal of aircraft from such operations did not seriously or adversely affect the efficiency of the field forces.

The following tables which analyse the operations of the Provincial Air Service for the past fiscal year are submitted for your consideration and convenience.

REFORESTATION

1. NURSERIES

The Provincial Forest Nurseries at St. Williams, Midhurst and Orono, continued the production of planting stock as usual.

In addition to these three main centres of distribution, two auxiliary distribution stations were in operation; viz., Kemptville for Eastern counties and Sand Banks for Prince Edward county and vicinity.

NURSERY OPERATIONS

(a) Fertilizers

The soil fertility at the nurseries was maintained by the application of commercial fertilizer, barn-yard manure, green soiling crops and humus.

TABLE I—QUANTITIES OF FERTILIZERS USED

Nursery	Manure	Commercial
St. Williams.....	370 tons	16,100 lbs.
Midhurst.....	215 tons	6,000 lbs.
Orono.....	303 tons	
Totals.....	888 tons	22,100 lbs.

(b) Seed

All tree seed used at the nurseries was collected in Ontario with the exception of some smaller quantities of exotic species difficult to obtain in this country.

(c) Seed Beds

The following table shows the seeding operations for the year.

Totals.....	18,933,900	3,438,950	763,000	23,135,850

IMPROVEMENTS

(a) Buildings

At St. Williams the extension to the tool-house was completed also a new combined work shop and sawmill 60' x 36' was erected. This sawmill constitutes an important economy, greatly lessening the cost of material used on the nursery and for shipping crates. Building at Orono and Midhurst was confined to maintenance and repairs.

(b) Roads and Bridges

The usual road maintenance work was done. No new construction work was undertaken.

PROTECTION

(a) Fire

No fire occurred on the nursery property this year. All fire guards were maintained and grass areas in the vicinity were burned off during the early spring to reduce fire hazard.

(b) Insects

Close co-operation was maintained with the Forest Insects Division of the Dominion Department of Entomology. Spraying of infected areas was carried out to control some insects, and parasites were liberated to combat others.

(c) Birds

The depredations of birds and rodents were reduced to a minimum by patrol methods.

(d) Fungus Diseases

The fight against damping off fungus in the seed beds was waged vigorously, and new control methods are being experimented with.

The white pine blister rust is still being vigorously and systematically combatted with good results.

WOODLOT AND PLANTATION IMPROVEMENT

Pruning and thinning operations have been carried on, and considerable valuable material obtained from some of the older plantations.

These improved plantations and woodlots are visited by many hundreds of people each year. Therefore their true value is to be found in practical demonstration and publicity.

2. TREE DISTRIBUTION

Of the total number of trees available for planting in the spring of 1940; namely, 23,135,850, 17,266,697 were distributed for all purposes. Private planting showed a slight decrease in the number of individual applications but the number of trees distributed for this purpose was about the same as last year. Other types of planting showed a slight increase. The total increase for the year was 344,791.

The tables in the following pages list the distribution under different headings.

3. COUNTY FORESTS

The work of maintaining the county forest system in Ontario continued efficiently and these areas are rapidly growing into valuable woodlands. It will be interesting to note from the following table that the area included in these forests now totals 20,482 acres.

One new forest was established this year by the United Counties of Leeds and Grenville known as Limerick Forest.

4. SEED COLLECTING

Seed collecting this year as in former years centered at the Provincial Seed Extracting Plant at Angus. During the year a very important improvement to the plant was the equipping of the seed storage vault with refrigeration. This makes it possible now to keep seed under proper storage conditions and to prevent a drop in germination from year to year which always occurred with improper storage. It should be pointed out also under this heading that while Angus is officially known as the Provincial Seed Extracting Plant it is also the centre for storage for reforestation work throughout the Province. Here all planting and other equipment is stored, repairs made to equipment for county forests and hundreds of signs are made annually for county forests and municipal plantings.

Quantities of seeds regularly used by the nurseries were obtained in sufficient quantity mostly in the neighborhood of Angus. The quantity of red pine gathered for the year was rather small; namely, 6,813 bushels which came mostly from the three northern districts of Callander, Massey, and Pembroke.

5. EXTENSION ACTIVITIES

(1) DEMONSTRATION WOODLOTS

Along the main highways and country roads one frequently sees a sign "Demonstration Woodlot". This sign indicates that close at hand is a woodlot the owner of which has undertaken the task of caring for his woodlot under the guidance of a forester. In this way a practical demonstration in woodlot management is given to all the community. Other descriptive signs such as "Improvement Cuttings," "Fenced from Live Stock 1930", "Never Pastured", etc., are placed where they can be readily seen.

The number of demonstration woodlots was increased during the year from 345 to 428.

The following list shows the number in each county:

(2) INSPECTIONS

Many of the larger private planting projects were visited by this Department at the request of the owner. This policy is considered advisable to see that the material supplied is used to the fullest advantage.

Inspections and advice was also given on many Municipal and Provincial undertakings.

(3) EXHIBITS

Many valuable contacts were made, through the medium of exhibits, to persons and organizations interested in reforestation.

These exhibits are usually displayed at places where the attendance is largely drawn from the rural population, viz., Fall Fairs and important Plowing Matches.

(4) FIELD DAYS

In co-operation with the Ontario Conservation and Reforestation Association, Field days were held in Bruce, York and Hastings counties also a Field Day for Eastern Ontario at Sand Banks in Prince Edward County.

Much interest was shown by the public and press of the locality, in these valuable practical demonstrations of Reforestation and Conservation.

(5) LECTURES

Considerable extension work was done through the medium of lectures. This included lectures at Department of Agriculture Winter Short Courses, Department of Indian Affairs Agriculture Courses, High Schools, Service Clubs, Municipal Organizations, Junior Farmers Clubs, etc. Also a series of twelve lectures were given during the winter to students of the Ontario Agricultural College at Guelph.

TO THE HONOURABLE ALBERT MATTHEWS,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to Your Honour the Annual Report of the Inspector of Legal Offices for the year ending 31st December, 1941.

G. D. CONANT,
Attorney-General.

Toronto, March 31st, 1942.

REPORT OF THE Inspector of Legal Offices Ontario, 1941

Parliament Buildings,
Toronto, Ontario.

THE HONOURABLE G. D. CONANT, K.C.,
Attorney-General of the Province of Ontario.

Sir:

I have the honour to present my report as Inspector of Legal Offices for the year ending December 31st, 1941.

Mr. R. C. Buckley, who was Acting Inspector of Legal Offices for the first five months of last year, resumed his position as Departmental Accountant on the first of June, 1941. The Assistant Inspectors, Messrs. H. R. Polson and H. C. Moore, have visited the majority of the offices in their charge during the past year, and have offered many useful and helpful suggestions. In addition, Mr. J. H. Dignam and Mr. F. J. Reddin, Auditors, in accordance with their usual practice, have made an audit and inspection of every legal office in the Province, with the exception of a few isolated Division Courts.

During the year a complete Block Tariff system was initiated in the Division Courts of the Province with the assistance of representative Clerks and Bailiffs of Courts, and solicitors and representatives of Collection Agencies, and put into effect as of the first of September, 1941. The tariff, as approved by Order-in-Council, is published in book form with a list of all Clerks and Bailiffs in the Province, and copies are obtainable from this office.

During the year the various officials in the different parts of the Province have been faithful and painstaking in their duties and have co-operated with this office in seeing that the public is properly and efficiently served. I take this opportunity of thanking all officials in the legal offices for the kindness and courtesy shown to me during the time that I have occupied this position.

The following is the total revenue collected by the legal offices of the Province and the disposition of such money:

DEPARTMENT OF INSURANCE

TO THE HONOURABLE GORDON D. CONANT, K.C., M.P.P.

Minister in Charge of the Department of Insurance.

I have the honour to submit herewith the Sixty-third Annual Report of the Superintendent of Insurance for the year 1942 (business for the year ended December 31st, 1941). This Report includes the Preliminary Tables respecting 1941 business as printed under date April 30th, 1942.

The Report is arranged in four divisions, in addition to an index of all insurers licensed to carry on business in Ontario and classes of insurance for which authorized, as follows:

- I. Annual Statements.
- II. Annual Statement Abstracts.
- III. Statistical Tables.
- IV. Appendices.

The first division, entitled "Annual Statements," contains extracts from the Annual Statements filed with the Department by all licensed insurers, arranged alphabetically by class of insurer. Insurers registered under *The Canadian and British Insurance Companies Act, 1932*, or *The Foreign Insurance Companies Act, 1932* (Dominion Acts), have been required to file only Modified Statements, summarizing their assets and liabilities and showing their underwriting experience within the Province only, with the Department, and this skeleton information only has been included in this Report.

Division II, entitled "Annual Statement Abstracts," contains tabulated summaries showing the financial condition of all joint stock and cash-mutual fire insurance companies and fraternal societies not registered under the above mentioned Dominion Insurance Acts. Some discrepancies will be observed between the figures shown in these tables and those shown in the statements of individual insurers in Division I, the latter containing changes made as a result of inspection reports. In such cases the figures included in Division I should be understood to prevail.

Division III, entitled "Statistical Tables" shows in tabular form the premiums and losses of and other information pertaining to all licensed insurers, except mutual benefit societies.

Division IV includes, as "Appendices," certain miscellaneous information and a review of certain legislation enacted at the 1942 session of the Legislative Assembly of this Province.

LIFE INSURANCE

As of December 31, 1941, forty-one companies were licensed to write life insurance in the Province of Ontario, as compared to forty at the end of the previous year.

The new company was the Norwich Union Life Insurance Society of Norwich, England, which was licensed in the Province as from June 19, 1941.

The number of companies licensed consists of 27 Canadian companies, 6 British, 7 American and 1 Australian.

Premium income received from Ontario Policyholders again recorded a substantial increase over the previous year, of 2½ million dollars totalling \$98,600,000 for the year. The increase in 1940 over 1939 was 2 million dollars.

All types of insurance shared in the increase to some extent, but Ordinary Assurances was the major factor, increasing from 65½ millions in 1940 to better than 67 millions in 1941.

A comparative summary of premium income for the past five years is as follows:

	1941	1940	1939	1938	1937
Net Premium Income:					
Assurances { Ordinary	\$67,228,107	\$65,503,969	\$64,416,787	\$64,108,038	\$63,903,155
Industrial	19,135,278	19,025,189	18,986,346	19,416,585	19,110,715
Group	4,566,469	4,062,406	3,731,724	3,545,658	3,276,635
Annuities	7,702,159	7,587,547	7,021,777	7,119,322	6,108,684
Consideration for Sinking Fund Policies			500		
TOTALS	\$98,632,013	\$96,179,111	\$94,157,134	\$94,189,603	\$92,399,189

Disbursements to policyholders in Ontario and their beneficiaries exhibited a remarkable reversal of trend in 1941. Despite increased writings and an increase in business in force, disbursements to policyholders showed a decrease of approximately 5 millions from the 1940 total. Disbursements for 1941 totalled only \$64,300,000, as compared to \$69,100,000 in 1940. This decrease is the more remarkable when compared to increases of \$700,000, \$3,400,000, \$2,300,000 and \$800,000 in the years 1940, 1939, 1938 and 1937, over the respective previous years.

This large reduction in disbursements is the direct result of a \$4,000,000 decrease in surrender values and \$1,500,000 decrease in dividends, partially offset by an increase in death claims. The reduction in cash surrender values paid to policyholders was to be expected, in view of the widespread reduction in unemployment throughout the country arising from the extension of war industries.

The following is an analysis of disbursements to Ontario policyholders and their beneficiaries during 1941:

	1941				TOTAL FOR 1940

New business written in the Province of Ontario during 1941 showed an extraordinary increase over the previous year. Business written in that year totalled \$330,000,000, as compared to \$276,000,000 in 1940, an increase of \$54,000,000, as compared to an increase of only \$2,000,000 in 1940 over 1939.

As a direct result of this extraordinary increase in business written, the amount of business in force in the Province of Ontario has correspondingly increased. As of December 31, 1941, insurance in force amounted to \$3,459,000,000 as compared to \$3,252,000,000 at the end of 1940 and \$3,132,000,000 at the end of 1939. The increase in new business written was approximately 19%, and of business in force, 6%.

A comparative summary of new business issued, amount ceased by death and amount in force as of December 31, for the years 1937 to 1941 inclusive, is given below:

FRATERNAL INSURANCE

As of December 31, 1941, there were 43 fraternal societies licensed to operate in the Province of Ontario. This was one more than as at the end of the previous year, the new society being the Associated Canadian Travellers, head office Calgary, Alta., which was licensed in Ontario as from May 23, 1941.

Total premiums and dues collected from members in 1941 were \$2,393,000, as compared to \$2,415,000 in 1940, \$2,462,000 in 1939, \$2,528,000 in 1938, and \$2,510,000 in 1937.

Disbursements to policyholders and beneficiaries in Ontario (excluding expenses) in 1941 amounted to \$3,019,000. This figure is not strictly comparable to previous years, as in those years the amount of expense disbursements was included in the total.

Adult mortuary certificates in force in Ontario declined slightly from \$72,100,000 at the end of the previous year to \$72,000,000 at the end of 1941. Juvenile mortuary certificates, on the other hand, increased from \$2,800,000 at the end of the previous year to \$3,398,000 at the end of 1941. Both types of mortuary certificates, therefore, combined show a net increase of approximately \$500,000.

New business written, both juvenile and adult, showed a net increase of approximately \$700,000, to total \$5,600,000.

FIRE INSURANCE

Three hundred and twenty-one companies had licenses to transact fire insurance in Ontario during 1941, which was ten less than in 1940. Seven New England factory mutuals and four joint-stock companies were reinsured by other licensed companies, and one joint-stock company did not renew its license in 1941. New licenses were issued to two joint-stock companies.

The Fire, Automobile and Casualty premiums and losses are shown in somewhat different form this year from my previous reports. Details of gross premiums and licensed reinsurance ceded have been eliminated, and Net

Premiums Written only are shown, and now represent the gross premiums written, less return premiums and less reinsurance premiums paid to companies registered or licensed anywhere in Canada. Companies unlicensed in Ontario (but registered or licensed elsewhere in Canada) and accepting reinsurance in this Province are shown separately as "Unlicensed Reinsurers." Net Losses incurred do not this year include the expenses of adjusting claims that were formerly included in this figure, and consequently the loss ratios developed for 1941 will not be entirely comparable with previous years.

Net Premiums Written in Ontario by all companies in 1941 were \$21,944,046, an increase of \$3,489,291 or 18.9% over the 1940 business. Part of this increase would be due to policies being written for terms of three years and over, which was not possible in former years due to section 104 of *The Insurance Act* that limited the term of a fire policy on a mercantile or manufacturing risk to one year and on other risks to three years. This section was repealed as of March 1, 1941.

Net Premiums Earned are not affected by the term for which policies are written, and in 1941 totalled \$18,882,687, an increase of \$476,568 or 2.6% over 1940.

Total net losses incurred in Ontario were \$7,515,479 in 1941, as compared with \$7,434,245 in 1940. The ratio of net losses incurred to net premiums earned was 39.80% for 1941 and 40.39 for 1940. Premiums earned and losses incurred for the various classes of insurers defined by the Act are tabulated below, together with the same figures for 1940. The experience of each insurer is shown in Table X, and a comparative summary appears in Table XIII on page 241.

FARMERS' MUTUAL FIRE INSURANCE

(See Abstract Tables of assets, liabilities, receipts and disbursements on pages 78 to 85; loss ratios on pages 215 and 216; and other data on pages 200 to 202.)

Experience of the farmers' mutuals was again favourable in 1941, being the eighth consecutive year in which substantial progress has been made by these companies.

Net insurance in force increased 12¾ millions to 583 millions, and the number of policies increased 3,700 to 195,000. Net direct insurance increased 10 millions to 537 millions, the average of 167,000 such policies being up \$19

at \$3,215. Since the average direct policy increased \$32 at \$3,490, the companies appear to have made greater use of reinsurance facilities in 1941.

Net losses paid increased \$64,000 at \$1,003,000, and net losses incurred of \$973,000 was an increase of \$22,000 or 2.3%. Cost of management was unchanged at \$330,000. In terms of cents per \$100 of the average net amount of insurance in force during 1941, cost of insurance was slightly down at 22.6c., the decrease of .1c. in management cost (5.7c.) being offset by an increase of .05c. in loss cost (16.9c.). Cost of insurance to the members (net premiums earned) on the same basis was unchanged at 28.5c., except that refunds from surplus credited by four companies reduced it to 28.1c.

Net premiums received increased \$41,000 to \$1,637,000, and net premiums earned were up \$32,000 to \$1,644,000, in line with the increased volume of insurance in force. Interest earned on investments increased only \$13,000 to \$161,000, although investments made (\$591,000) exceeded investments realized (\$159,000) by \$432,000.

The ratio of net losses incurred to net premiums earned was 59.18 in 1941—a slight increase from 58.99 in 1940. The ratio of management expense to net premiums earned was down from 20.52 in 1940 to 20.11 in 1941.

Aggregate surplus increased \$404,000 in 1941 to \$4,216,000, which is equivalent to an increase of 5.5c. to 72.3c. per \$100 of net insurance in force. This is a long way from surplus of \$717,000 (13c.) at the end of 1933. Liquidity (excess of bonds and cash over net unpaid losses, borrowed money and other cash liabilities) also increased sharply—by \$443,000 to \$4,898,000, or 84c. per \$100 of net insurance in force. These figures are net after donating \$47,000 to the M.F.U.A. British Aid Fund and other patriotic and charitable funds.

The financial positions of 58 out of the 67 companies improved in 1941, and, of the 9 which weakened, 5 were small decreases and 3 of the remaining 4 were companies in a strong surplus position. The ninth company had a set-back of 9c. per \$100 of insurance, and ended the year with a deficit of \$243. Annual statements of 1940 showed 49 companies with surpluses in excess of 50c. per \$100 of insurance, 10 with from 25c. to 50c., 6 with less than 25c., and 2 with deficits of .03c. and 23.5c. The latter had been reduced 5c. during the year.

Refunds from surplus were declared in 1941 by the Canadian Millers' Mutual (50%), the Dunwich Farmers' Mutual (20%), the Dufferin Farmers' Mutual (30%), the Elma Farmers' Mutual (30%), and the Otter Mutual (15%). Basic rate reductions beneath the minima prescribed by statute were approved in four companies, and a number of other reductions were also effected, although the uncertainty of wartime conditions and the desire for maximum participation in war financing prevented many rate reductions which otherwise would have been made.

AUTOMOBILE INSURANCE

One hundred and seventy-two companies were licensed to transact automobile insurance in Ontario in 1941. During the year a new license was issued to one joint-stock company that reinsured the business of two other companies that ceased to transact business in Ontario.

Net premiums written in 1941 were \$13,315,564, an increase of \$1,180,320 or 9.7% over the 1940 figures. These premiums have shown regular and substantial increases each year since 1933, as is shown in the tabulation below, and are now over twice the amount of premiums written in 1933 of \$6,462,809.

Losses incurred amount to \$6,751,708, an increase over 1940 of \$51,326, and the ratio of these losses to premiums earned is 53.20%, as compared with 57.02% in the previous year. An accurate comparison of this loss ratio, how-

ever, cannot be made with previous years, since the expenses for settling and adjusting claims are not included in the 1941 losses, while they were included in the losses of previous years. A tabulation of the premiums and losses for the past sixteen years is as follows:

The figures shown in the foregoing table afford a rough indication of the underwriting experience of the companies in the aggregate from the standpoint of the shareholders or members of the several companies; they do not indicate the reasonableness of the premium rates shown in any particular manual of rates or charged by any particular company, because insurers which are not member companies of the Canadian Underwriters' Association write approximately sixty per cent of the automobile insurance premiums reported for Ontario at "non-tariff" rates, which are slightly lower than "tariff" rates.

Loss-Cost Experience

The automobile insurance loss-cost experience in the Province continues to be filed by insurers with the statistical agency designated pursuant to Section 72 of *The Insurance Act* (The Canadian Underwriters' Association).

On September 15th, 1942, the statistical agency was instructed to tabulate the automobile insurance data in Ontario of all insurers transacting such business for the calendar year 1941, transactions in respect of 1937, 1938, 1939, 1940 and 1941 policy years, and for the first six months of calendar year 1942 transactions in respect of policy year 1941. The tabulated results so directed to be compiled were subsequently filed with the Department. Development factors to reduce the 1941 incomplete policy year experience (valued as at June 30th, 1942) to a complete policy year basis were approved by the Department on November 24th, 1942. During December, 1942, experience exhibits were received containing automobile insurance loss-cost indications directed to be developed from the tabulated results of the complete policy years 1937, 1938, 1939 and 1940, and the incomplete policy year 1941 (valued as of June 30th, 1942).

Automobile Insurance Premium Rates

Sections 302, 303 and 304 of the Act, providing for government regulation of automobile insurance premium rates, are not in force. Insurers and rating bureaux are not required to file their schedules of premium rates with the

Department. Nevertheless, by analysis of the loss-cost experience data filed pursuant to section 72 of the Act, the Department is in a position at all times to report to you upon the reasonableness of automobile insurance premium rates fixed, made or charged in the Province. Complete loss-cost experience data for the automobile insurance business of all insurers in the Province, stock and mutual, tariff, non-tariff and Lloyd's, is presently on file, commencing with the policy year 1927. Automobile insurance loss-cost experience data is now required to be filed in seven provinces (excluding Quebec and Nova Scotia).

Standard Forms

The work of the Committee of Underwriters, which Committee makes recommendations from time to time respecting the forms of application, policy and endorsement to be used for the writing of automobile insurance in the several provinces under the "Uniform Automobile Insurance Act," has been covered in previous Reports since 1932. (For last reference see page x of the 1941 Report). A list of the "Standard" forms, revised to July 1st, 1939, is given in Appendix V of the 1939 Report. No changes were made in 1940.

The changes in 1941 (to July 14th, 1941) are printed in the 1941 Report at page x.

During 1942 the Committee recommended the following forms as "Standard" forms, which recommendations were accepted on behalf of all provinces (excluding Quebec) under the "Uniform Automobile Insurance Act":

S.E.F. No. 26a—Additional Interests (Customers') Endorsement.

S.A.F. No. 6 —Application for Standard Non-owned Automobile Policy.

S.P.F. No. 6 —Non-owned Automobile Policy.

S.E.F. No. 37 —Limitation of Cover to Operation of Automobiles by Officers and Employees.

S.E.F. No. 38 —Limitation of Cover to Operation of Automobiles of the Commercial Type Hired by the Insured.

S.E.F. No. 39 —Limitation of Cover to Operation of Automobiles by Named Employees.

In accordance with the practice followed in previous years, the Committee was named for the 1942-43 season on October 28th, 1942. The personnel of the Committee of Underwriters for the current season is the same as shown in the 1940 Report on page x.

CASUALTY AND MISCELLANEOUS INSURANCE

(OTHER THAN AUTOMOBILE)

Net premiums earned have not been calculated this year for the casualty and miscellaneous classes of insurance, other than Automobile, and the following table shows net premiums written and net losses incurred (excluding adjusting expenses) for 1941 for these classes of insurance.

Net premiums written have increased \$1,365,565 over the 1940 figure of \$12,296,184, while net losses incurred have increased by \$273,734. The ratio of net losses incurred to net premiums written is 38.48%, as compared with 40.53% in 1940.

AGENTS' COMMISSIONS

In previous reports reference has been made to the need for adjustment in fire insurance rates and commissions and to the fact that some rate reductions had been effected. Since the publication of my last report the Canadian Underwriters' Association has issued a new plan of agency contract applicable to agents outside the tariff districts of Toronto and Montreal and designed to improve the competitive position of the tariff companies, members of the Association. Under this plan agents are classified and paid according to the percentage of business given to tariff companies, as follows:

- (a) An agent already giving member companies not less than 50% of his total fire premiums, excluding farms, and undertaking within three years to increase his percentage to 75% and to maintain it at not less than 75% will receive additional remuneration of 5% on certain classes, i.e. commission rates of 20-20-25% instead of 15-20-25%.

with a substantial increase in the classes of risk taking a 25% commission.

- (b) An agent giving similar companies not less than 35% of such premiums and increasing the proportion to at least 50% within three years will receive current graded commission rates.
- (c) An agent giving member companies less than 35% of such premiums will receive the same commission rates as Class (b) until July 31st, 1943, by which time he must raise the proportion to Class (b) level or surrender the Association rating materials.

The main principle involved in the above plan of remuneration is to pay the agent in relation to the volume of business placed with tariff companies. It is a competitive basis designed to attract business from competitors through the incentive of an increased commission rate. It ignores the sound principle of payment to the agent in relation to services rendered.

This plan may lead to increased competition in the commissions paid to agents and, if so, will result in a further increase in the cost of doing business which is already at a high level. Fair competition in insurance rates is a healthy condition tending to produce a reasonable cost to the insured. Competition in commissions can only retard or prevent reduction in rates and increase the cost to the public.

JURISDICTION

In my last Report reference was made to an amendment to section 16 of *The Special War Revenue Act* enacted by the Parliament of Canada in 1941, subject to proclamation by the Governor-in-Council, such proclamation not to be issued until the amended section shall have been submitted to the Supreme Court of Canada for the purpose of determining if it be *ultra vires* of the Parliament of Canada. The effect of the amendment was to impose on residents of Canada who insure with any British or foreign company not registered under the laws of the Dominion of Canada to transact insurance or with any exchange, the chief place of business of which is outside Canada, and not so authorized, a 10% premium tax respecting such insurance, whether or not such insurer be licensed by a province. The interrogatory was referred to the court in the following terms:

"Is section 16 of The Special War Revenue Act, as enacted by section 1 of Chapter 54 of the Statutes of 1932 and amended by section 4 of Chapter 27 of the Statutes of 1940-41 *ultra vires* of the Parliament of Canada either in whole or in part, and if so, in what particular or particulars or to what extent?"

The Reference was argued on November 17th-19th, 1941, and judgment delivered on October 6th, 1942. The unanimous judgment of the court was that the interrogatory should be answered "Yes, in its entirety."

The reasons for judgment are printed herein as Appendix V.

NEW LEGISLATION

A review of legislation enacted at the 1942 Session of the Legislature is included as Appendix I to this Report.

Miscellaneous Statement

I. STATEMENT OF ACTUARIAL LIABILITIES

(1) Valuation of Assurance Policies and Annuity Contracts:

For the regular line business, the policies of insurance in force were grouped for valuation purposes according to the year of issue, plan and age nearest birthday in the year of issue. Prepared tables of mean reserves were used on the net level annual premium basis, and advantage was taken of the deductions permitted by *The Ontario Insurance Act*. The basis of valuation was as follows: Policies issued prior to 1931 were valued on the OM(5) table of mortality with interest at $3\frac{1}{2}\%$ per annum, and those issued in 1931 and subsequent years were valued on the AM(5) table of mortality with interest at $3\frac{1}{2}\%$ per annum. A limited number of special contracts were valued throughout on the OM(5) or the AM(5) tables of mortality with interest at $3\frac{1}{2}\%$ per annum. There was an exception to the foregoing in the case of the former Mutual Relief Life business reinsured by this Company in 1930, the entire amount of this business being valued by the AM(5) table of mortality with $3\frac{1}{2}\%$ interest.

The Company has in force some fraternal insurance arising from the reinsurance of the Canadian Order of Odd Fellows and the Mutual Relief Life Insurance Company. In respect of policies in this section on the Whole Life plan, the business was grouped according to attained age in 1940, and the sums assured and net premiums were valued separately. For business on other plans in this section the policies were grouped for valuation purposes according to the year of issue, plan and age at issue, and prepared tables of mean reserves were employed. All policies in force in this section were valued according to the AM(5) table of mortality with interest at 4% per annum.

For vested annuity contracts and single premium deferred annuities involving life contingencies, the basis of valuation provides a reserve in excess of the British Offices Select Life Annuity Tables, 1893, with interest at $3\frac{1}{2}\%$ per annum. Contracts for immediate annuities for periods certain were valued on an interest basis of $3\frac{1}{4}\%$ per annum. A serialim method was used for the foregoing valuation of annuities. Contracts issued as annual premium deferred annuities, which did not involve life contingencies during the deferred period, were valued by accumulating the net premiums with interest at the rate of $3\frac{1}{2}\%$ per annum.

(a) Policies issued at premiums corresponding to ages higher than the true ages were valued as of the rated-up age.

(b) Policies issued subject to a lien or contingent debt were valued for the full amount of insurance.

(c) Policies otherwise issued on lives classed as substandard or special seem to be all included in categories (a), (b) and (d).

(d) Policies issued at, or subject to, an extra premium payable either in one sum or annually; ordinarily the latter only are issued, and a reserve equal to 50% of the gross extra premium is provided in the valuation.

(e) For policies providing for disability benefits, waiver of premium and other benefits (waiver of premiums only and waiver of premiums with monthly income without deduction from the sum insured) the additional liability was determined as follows:

(i) Before the occurrence of disability by the accumulation without interest of the gross extra premium for disability from the date of issue on the policies in force as of the date of valuation.

(ii) After the occurrence of disability the reserve provided was the present value of the future income payments and premiums to be waived on the basis of Hunter's disability table with interest at the rate of 3% per annum adjusted as follows, according to the year preceding the date of valuation that the claim was incurred: 50% first year, 75% second year, 85% third year, 95% fourth year and 100% in the fifth year of disability and thereafter.

(f) Policies providing for additional accidental death benefits were valued as follows: For all policies in force a reserve of 62 $\frac{1}{2}\%$ per \$1,000 was set up, and in addition thereto, for policies where the premium-paying period was less than the period of coverage, the excess amount of the premium paid for the double indemnity benefit over \$1.25 per \$1,000, such excess being accumulated at $3\frac{1}{2}\%$ interest per annum.

(g) Annuities issued to lives classed as under average were valued as of the rated-up age on the basis of which the contract was issued substandard.

(h) Any other special classes of policies the foregoing statement appears to cover.

(2) Items of Special Reserves:

(a) To cover future expenses for limited payment and single premium assurance policies and for immediate annuity contracts, no reserve is maintained.

(b) To make provision for benefits granted under contracts which may at any duration be in excess of the reserve computed in accordance with the basic method of valuation; the only forms in this category are certain classes of policies where the guaranteed values exceed the level premium reserve on the usual basis, and for these a pure endowment reserve was provided equivalent to the excess of the guaranteed value over the level reserve.

(c) To provide any amount, in excess of the cash value held, which may be made available upon the reinstatement of lapsed policies; no provision for this item was made as the volume of policies lapsing always exceeds the amount of reinstatements.

(d) To cover the option of renewal under term policies no reserve was provided.

(e) To cover the option of conversion either during a fixed term or at the end thereof into higher premium policies, the premium for the new policy being fixed according to the age at entry or the age at date of conversion, no reserve was provided.

(f) To cover any other contingency; excepting for the special contingency reserve noted in the balance sheet and the provision for unreported death and disability claims, no items of special reserve other than those described above appeared to be necessary.

II. INVESTMENT INCOME AND INVESTMENT EXPENSES

(1) Average rate of interest earned. The average rate of interest earned during the year 1941 on the basis of the net ledger assets was 4.38% according to the formula $21 + (A + B - I)$. The revenue interest for the year is determined by taking the cash interest income, including premium on foreign currency, page 9, item 4, plus the accrued interest as of the 31st of December, 1941, page 5, item 14, less the accrued interest as of the 31st December, 1940, being the corresponding item. The book value of the net ledger assets as of the end of the year is represented by item 10, page 5, of this statement, and for the beginning of the year by the corresponding item of the previous year's statement. On the basis of the mean net ledger assets taken at the authorized values, the rate of interest was 4.59% by the same formula.

(2) Investment expenses. The investment expenses for 1941 amounted to \$31,782. These expenses were comprised of taxes \$4,746.42, salaries \$12,000.00, rents \$1,652.33, directors' fees \$4,500.00, auditors' fees \$1,000.00, travelling expense \$1,000.00, miscellaneous \$3,535.73, and commissions, etc., \$3,347.52. In determining the basis of expenses not specified, function is made from time to time.

III. ALLOCATION OF SURPLUS

(1) Basis for the distribution of surplus as between shareholders and policyholders. A separation of the funds of the Company as between participating policies, non-participating policies and shareholders has been made, and the surplus arising from participating policies is allotted on the basis of 90% to the policyholders and 10% to the shareholders.

(2) Method by which dividends for each class of assurance policies and annuity contracts were computed. The distribution of surplus is made on a three-factor contribution method, using the factors (i) gain from interest earned in excess of the amount required to maintain the policy reserve, (ii) gain from mortality, i.e. the difference between the claims experienced and the expected claims on the net amount at risk according to the method of valuation, and (iii) the gain from loading on premiums in excess of the expenses.

The interest surplus is taken at 0.50% of the mean reserve by the Canadian modified preliminary term method.

The gain from mortality is assumed to be 10% of the AM(5) table of mortality with a minimum of \$1.00 per thousand applied to the net amount of risk.

The gain from loading is taken as 50% of the excess of the gross premium over the net renewal premium by the Canadian modified preliminary term method AM(5) $3\frac{1}{2}\%$ and expenses of $7\frac{1}{2}\%$ of the gross premium plus \$3.00 per thousand per annum. In the case of endowment plans on the 1937 rate series, the loading factor is a percentage of (the gross premium less the net renewal premium on the Canadian modified AM(5) $3\frac{1}{2}\%$ basis) graded from 5% at age 10 to $7\frac{1}{2}\%$ at age 50. In the case of the retirement income bond plan, the loading factor is 50% of (the gross premium less the net premium and less the expense allowance of 5% of the gross premium plus \$7.50 per unit premium).

It is assumed that there are no dividends earned during the first policy year. Quinquennial dividends are derived by accumulating the annual profits as described above at 5% to cover interest and survivorship. The amounts of the cash dividend determined as described are converted into bonus additions, using the AM(5) $3\frac{1}{2}\%$ table, and are converted into premium reductions, using annuities certain on the $3\frac{1}{2}\%$ interest basis.

Respecting policy proceeds left on deposit with the Company at interest, it is recommended that the rate of interest for 1942 be declared at $3\frac{1}{2}\%$ per annum, subject to the special guarantee of a higher rate in the case of a few policy contracts. Amounts pertaining to policy contract in the form of premiums paid in advance are accepted subject to a rate of discount computed on a 3% interest basis.

The foregoing schedule is applicable for participating policies entitled to share in profits during 1942.

Annuities are issued by the Company only on the non-participating basis. No distinction in dividend clause is made as between policies with and without disability benefits.

IV. REASSURED CONTRACTS

This Company has business ceded to one company not licensed in any province of Canada, the particulars being as follows: Lincoln National Life Insurance Company; amount of insurance, \$25,774; reserve, \$544, as of the 31st December, 1941.

Basis of the above valuation was:

- For certificates issued prior to October 1, 1937—American Men Ultimate Table and interest at 4%. The net premiums valued were the premiums received, less \$3 per \$1,000 per annum.
- For certificates issued on and after October 1, 1937—American Men Ultimate Table with interest at 3 ½%. A modified preliminary term method was used by which the allowance under any certificate, for first-year expenses, was limited in the valuation to the amount of the 20 Payment Life premium for the amount of insurance and for the age of entry under the certificate valued.

Average rate of interest earned on ledger assets was 4.84%.

The mortality experienced on the gross amount at risk was 60.3% of the expected up to age 59 and 86% from age 60 up. The total mortality on the gross amount at risk was 82.7%.

Amount of insurance valued was \$6,470,877.00.

Ratio of assets to liabilities was 109.2%.

Basis of valuation: The certificates issued under the sickness plan in force prior to 1937 were valued upon the basis of the M.U.O.O.F. Table and $3\frac{1}{2}\%$ interest, Occupation Group A.H.J., Area 1, Rural and Urban combined, using the first three months' sickness only. The net premiums valued were 85% of the gross premiums. The new plans issued from 1937 on were valued on the basis of the same table, using the first twelve months' sickness. A modified preliminary term method was used by valuing the net premiums at age of entry, plus six months, according to the table used in the valuation.

Ratio of assets to liabilities was 162.7 %.

All the above valuations were compiled by S. H. Pipe, F.A.S., F.A.I.A., A.I.A., Toronto.

IV APPENDICES

APPENDIX I

REVIEW OF 1942 LEGISLATION

At the 1942 session of the Legislature the following amendments were effected to *The Insurance Act* by *The Insurance Amendment Act, 1942* (Statutes of Ontario, 1942, Chap. 22). The Legislature prorogued on April 16, 1942, and the Act, except sections 1 and 6, came into force sixty days after the day of prorogation. Section 6 came into force on June 1, 1942, by proclamation dated May 28, 1942.

By section 1 (to come into force on a day to be named by the Lieutenant-Governor by his proclamation) clauses 4, 9, 14, 19, 26, 27, 30, 39, 48, 53, 54, 58 and 60 of section 1 of *The Insurance Act* are repealed. This amendment (when proclaimed in force) will remove from *The Insurance Act* the definitions of classes of insurance which are not required for purposes of the statutory conditions and provisions. Provision is made in section 2 to define such classes of insurance by regulations. This section also provides for the determination by the Superintendent of the classes of insurance into which various forms of insurance contract may fall. Former section 24 of the Act is repealed, and the new provisions substituted therefor.

By section 3 a new subsection 2 (a) is added to section 39 of the Act to make clear that the deposit provisions of the Act shall not apply to marine insurance.

By section 4, subsection 1 (a) of section 102 of the Act, which makes the provisions of the Fire Part of the Act applicable to any additional hazards which may be covered by a contract supplemental to a fire policy, is repealed as certain provisions of such supplemental contracts conflict with the provisions in the Fire Part.

By section 5 a new section 187a is enacted as follows:

187a. Indemnity under a contract of automobile insurance shall not be deemed contrary to public policy whether or not loss or damage in respect of which the indemnity is claimed has been caused through negligence or through violations of *The Criminal Code* or any law or statute of any province, state or country by the owner or driver of the automobile.

By this amendment the common law principle of no indemnity for loss caused by a criminal act is removed as a defence to a claim under an automobile insurance policy.

By section 6 a new automobile statutory condition 3 (a) is added to section 188 of the Act. The new condition reads as follows:

3 (a). In cases other than motor vehicle liability policies, the insurer shall not be liable for loss or damage that is caused directly or indirectly by bombardment, invasion, civil war, insurrection, rebellion, revolution, military or usurped power, or by operations of armed forces while engaged in hostilities, whether war be declared or not, or by civil commotion arising from any of the foregoing, unless the policy or an endorsement thereon expressly provides otherwise.

The new condition excludes coverage for losses caused by war except where special provision has been made in the policy or in an endorsement thereto. This condition came into effect on June 1, 1942, by proclamation of the Lieutenant-Governor.

By section 7, section 222 of the Act is amended to read as follows:

222. This part shall apply to weather insurance and to any insurer carrying on the business of weather insurance in the Province, but shall not apply to weather insurance provided by an endorsement to a contract of fire insurance.

This amendment removes the conflict as to the conditions applicable to weather insurance added by endorsement to a contract of fire insurance.

By section 8, subsection 15 of section 281 is repealed, and new subsections 15, 15a and 15b substituted therefor, reading as follows:

(15) A member of a duly licensed pension fund association other than a salaried employee who receives commission, or a member of a mutual fire, weather or live stock insurance corporation carrying on business solely on the premium note plan, may without a license solicit persons to become members of such society, association or corporation.

(15a) An officer or a salaried employee of the head office of a duly licensed fraternal society who does not receive commission, may, without a license, solicit insurance contracts on behalf of the society.

(15b) Any member not an officer or salaried employee described in subsection 15a may without a license solicit insurance contracts on behalf of the society unless such member devotes or intends to devote more than one-half of his time to soliciting such contracts or has in the previous license year solicited and procured life insurance contracts on behalf of the society in an amount in excess of \$20,000.

These subsections provide for the licensing of agents of fraternal societies.

THE CORPORATIONS AND INCOME TAXES SUSPENSION ACT, 1942

By this Act (6 Geo. VI, Chap. 1) the Treasurer of Ontario is authorized, on behalf of the Government of Ontario, to enter into an agreement with the Government of the Dominion of Canada, the effect of the agreement and this Act being to suspend the levying and collection of taxes under *The Corporations Tax Act* and *The Income Tax Act* and taxes on reciprocal exchanges imposed under *The Insurance Act* for the duration of the war. The agreement appears as a schedule to the Act. The suspensions commenced in the calendar year 1941 and continue for subsequent calendar years during the operation of the agreement. The Dominion will reimburse the Province for its loss of revenue by quarterly subvention payments. The amount payable annually by the Dominion to Ontario is based on Ontario collections from the taxes suspended, during the fiscal year 1940-1941.

THE FIRE MARSHAL'S ACT

By section 14 of *The Statute Law Amendment Act, 1942* (6 Geo. VI, Chap. 34), subsection 1 of section 12 of *The Fire Marshal's Act* was repealed, and a new subsection substituted therefor requiring that the Fire Marshal's tax of one third of one per centum upon the gross premiums in respect of fire insurance business transacted in Ontario be calculated in accordance with the annual statement furnished to the Department of Insurance under *The Insurance Act* and fixing the date of payment of tax to be on or before April 30 in each year. Formerly the tax was calculated in accordance with an annual statement furnished to the Treasurer of Ontario under *The Corporations Tax Act*, the operation of which is suspended pursuant to *The Corporations and Income Taxes Suspension Act, 1942*.

THE EVIDENCE ACT

By section 2 of *The Evidence Amendment Act, 1942*, section 45 of *The Evidence Act*, which prescribes the method of proving the death of a member of His Majesty's Forces, is re-enacted so as to conform with modern conditions. The new provision is substantially the same as that contained in *The Evidence Act* of most other provinces and is taken from the draft of the Uniform Evidence Act adopted by the Conference of Commissioners on Uniformity of Legislation in Canada. The new section 45 reads as follows:

45. The production of a certificate in writing signed or purporting to be signed,

- (a) by the Adjutant-General, Deputy Adjutant-General, or officer in charge of records, Militia Service, Department of National Defence, in the case of a member of His Majesty's Military Forces; or
- (b) by the Naval Secretary, Naval Service, Department of National Defence, in the case of a member of His Majesty's Naval Forces; or
- (c) by the officer in charge of records, Air Service, Department of National Defence, in the case of a member of His Majesty's Air Forces; or
- (d) by an officer of His Majesty's Naval, Military or Air Forces, authorized so to sign, in the case of a member of any of His Majesty's Forces;

stating that the person named in the certificate was a member of any of His Majesty's Forces, and that he has been officially reported as dead or presumed to be dead, if it appears on the face of the certificate that the person signing is qualified as prescribed in clause (a), (b), (c) or (d), as the case may be, shall be sufficient proof of the death of such person and of all facts stated in the certificate for any purpose to which the authority of this Legislature extends, and also of the office, authority and signature of the person giving or making the certificate, without any proof of his appointment, authority or signature.

APPENDIX II

REPORT OF THE STANDING COMMITTEE ON VALUATION OF SECURITIES

Association of Superintendents of Insurance of the Provinces of Canada

To the President and Members of the Association:

This Committee consists of the Provinces of Quebec and Ontario, and each year submits reports determining the basis of valuation of securities for use by insurers in completing annual statement blanks. The report with respect to valuations as at December 31, 1941, was as follows:

"Your Committee has unanimously concluded to determine the values of bonds, debentures and stocks for the purposes of the Provinces of Canada upon the same basis as last year, as follows:

"1. All bonds amply secured and not in default shall be valued on an amortized basis.

"2. All other bonds shall be valued as shown in the list of securities to be published on or about January 15, 1942, by the Standing Committee on Valuation of Securities of the Association of Superintendents of Insurance of the Provinces of Canada.

"3. Stocks, except as provided in paragraph 4, shall be valued in the aggregate at book value or market value, whichever is lower.

"4. Stocks held by life insurance companies may be valued in the aggregate at the cost or book value, whichever is lower, provided the income received by such companies on such stocks in the aggregate during each of the five years preceding the date of valuation shall have been at a rate sufficient to meet the interest required to maintain policy reserves and other policy obligations, and provided further that the net investment income received by such companies on their ledger assets shall not have been less than required to maintain the reserve. This shall not apply to stocks of corporations in receivership or similar status. Cost as used shall be held to include stocks received as exchanges or rights received as dividends or otherwise, at not to exceed the market value quoted on the date acquired.

"The list of securities referred to in paragraph 2 shall include all bonds held by insurance companies that are not eligible for amortization, and the valuations shown therein shall be market quotations as of December 31, 1941, except that bonds of states of the United States and of provinces of the Dominion of Canada and political subdivisions thereof shall be valued at market quotations as of December 1, 1941."

Your Committee is not at present prepared to submit definite recommendations concerning valuations used by insurers for real estate and mortgages, and would ask that they be authorized to continue their investigations.

The annual meeting of the National Association of Insurance Commissioners was held in Denver, Colorado, in June of this year and was attended by your Committee. The basis of valuation of securities adopted this year by the National Association was substantially the same as last year, although the wording of the resolution has been altered considerably and the method of determining those bonds that are eligible for amortization has been changed somewhat. Your Committee is faced with a much simpler problem in this regard than the National Association in the United States and has not experienced in the past and does not anticipate in the near future any difficulty in determining those bonds that are eligible for amortization.

Your Committee therefore recommends for adoption the same basis as last year for the valuation of securities for use by insurers in completing the annual statements as at December 31, 1942.

GEORGES LAFRANCE, *Chairman*

On behalf of the Committee (Ontario and Quebec)

APPENDIX V

COURT DECISIONS

EXPLANATORY NOTE:

There follows in full text the judgment of the Supreme Court of Canada, delivered October 6, 1942, in a Reference as to the validity of section 16 of The Special War Revenue Act. In 1941 the Parliament of Canada amended subsection (1) of section 16 by striking out the words "or of any province thereof" in the fourteenth line thereof. The effect of this change was to impose on residents of Canada who insure with any British or foreign company, not authorized under the laws of the Dominion of Canada to transact insurance, or with any exchange the chief place of business of which is outside of Canada, and not so authorized, a 10 per cent premium tax respecting such insurance, whether or not such insurer be licensed by a province. While before the Senate a provision was added to the amending legislation whereby the amendment to section 16 would not come into force until the question of its constitutionality shall have been submitted to the Supreme Court of Canada. On September 23, 1941, an Order-in-Council was passed referring the question of the validity of this section to the Supreme Court. The Reference was argued on November 17-19, 1941, and judgment delivered on October 6, 1942.

IN THE SUPREME COURT OF CANADA

IN THE MATTER OF A REFERENCE AS TO THE VALIDITY OF SECTION 16 OF THE SPECIAL WAR REVENUE ACT, AS AMENDED

BEFORE: The Chief Justice (SIR LYMAN DUFF), RINFRET, CROCKET, KERWIN, HUDSON and TASCHEREAU, J.J.

Argument, November 17, 18 and 19, 1941. Judgment, October 6, 1942.

The unanimous judgment of the Court was delivered by:

THE CHIEF JUSTICE: The interrogatory referred to us is in the following terms:

"Is section 16 of The Special War Revenue Act, as enacted by section 1 of Chapter 54 of the Statutes of 1932 and amended by section 4 of Chapter 27 of the Statutes of 1940-41, *ultra vires* of the Parliament of Canada either in whole or in part, and if so, in what particular or particulars or to what extent?"

The said section 16, as amended, reads as follows:

"16. (1) Every person resident in Canada who, after the thirty-first day of December, 1931, insures or has insured his property situate in Canada in which he has an insurable interest, other than that of an insurer of such property, or renews or has renewed any such insurance, against risks other than marine risks:

(a) with any British or foreign company; or

(b) with any exchange, the chief place of business of which exchange or of its principal attorney-in-fact is situate outside of Canada,

which, on or before the first day of July, 1932, or at the time such insurance is effected or renewed if after the last-mentioned date, is not authorized under the laws of the Dominion of Canada to transact the business of insurance, shall, on or before the first day of March,

1933, and on or before the first day of March in each year thereafter, pay to the Minister, in addition to any other tax payable under any other existing law or statute, a tax of ten per centum of the net premiums paid or payable by such person in respect of such insurance for the next preceding calendar year.

"(2) For the purpose of this section, every corporation carrying on business in Canada shall be deemed to be a person resident in Canada."

I have given to the arguments advanced in support of the validity of this enactment, as well as to those against it, the most prolonged and, I must admit, anxious consideration. Some of the arguments relied upon by the provinces seem to open up rather far-reaching topics touching the powers of the Parliament of Canada concerning intercourse with other countries. I find it unnecessary to discuss such topics, because I think the question raised by the reference falls to be dealt with upon comparatively narrow ground.

I am unable to accept the argument that the enactment is *prima facie* valid as such and that the invalidity of the existing legislation relating to the transaction of the business of insurance is immaterial. In view of the decision in the Insurance Case of 1932 (in *re* Insurance Act of Canada, 1932 A.C., p. 41), I see no escape from the proposition advanced by the provinces that section 16 of The Special War Revenue Act, as amended by the statutes of 1940 to 1941, is, in point of law, so related to the insurance legislation affecting British and foreign companies and extra-Canadian exchanges that if the insurance legislation is invalid section 16 must fall with it. In this respect I see no admissible distinction between the two cases.

The point of substance, therefore, is whether this insurance legislation is invalid as a whole, or in such degree as to strike section 16 with sterility.

It is convenient first to refer to the Act relating to British companies. By section 2 (b) a British company is thus defined:

"British company means any corporation incorporated under the laws of the United Kingdom of Great Britain and Northern Ireland or any British Dominion or possession other than Canada or a province of Canada for the purpose of carrying on the business of insurance."

Sections 116 and 117 are in these words:

"116. There shall be established and maintained in the Department of Insurance a register in which shall be entered the names of all British companies registered under this Part and to which certificates of registry are granted.

"117. No British company shall transact the business of insurance in Canada, save as hereinafter expressly provided, unless it is registered and holds a certificate of registry from the Minister."

Section 118 requires, *inter alia* as a condition of registration, that a British company shall make a deposit with the Minister in any of the securities specified in section 55 of the Act in the following sums, namely:

"(1) for a certificate of registry to transact the business of life insurance or fire insurance, the sum of one hundred thousand dollars, and

"(2) for a certificate of registry to transact any other class of insurance business, such sum as the Treasury Board may determine."

It appears then that by this legislation a British company is prohibited from making any contract of insurance in Canada, that is to say in any province of Canada, and from performing in any such province any act of inducement to enter into any such contract, or any act relating to the performance of any such contract, or rendering any service connected with any such contract in any such province, unless it is registered, and among the conditions of such registration is that just mentioned.

One must consider the effect of these enactments in practice. Prior to the passing of this statute a British company has an agency in Toronto. It has complied with the provisions of the provincial law, whatever they may be, in respect of giving security for the benefit of its policyholders. The Dominion enactment comes into operation and the British company and its agents immediately come under the prohibition of section 117 and the company and its agents become subject to the penalties prescribed by section 142, which become exigible on the performance of any one or more of the acts constituting by definition the "business of insurance," unless and until it becomes registered under the Dominion statute.

I do not perceive any valid reason for holding that it would be beyond the powers of a province, in exercise of its authority to regulate the business of insurance in the province, to require the registration of insurers, and to exact as conditions of obtaining such registration the deposit of security of a character similar to that required by section 118.

Assuming that the Dominion, in exercise of its control of trade and commerce under the second clause of section 91, may regulate the business of insurance carried on by British companies as a branch of external trade and commerce, this does not give the Dominion authority to regulate their strictly provincial business; and it is my opinion that sections 116, 117 and 118, if valid, do effect the regulation of such business. The general principle is well settled and well known. (The King v. Eastern Terminal Elevator Co., 1925 S.C.R., p. 434; Attorney-General for Canada v. Attorney-General for Ontario, 1937 A.C., p. 326). The judgment of Lord Dunedin in the Insurance Case of 1932 *supra* does not explicitly deal with the provisions of the statute then under review that correspond with sections 116, 117 and 118. Nevertheless, I think when that judgment is read as a whole its language points rather to the conclusion that, in the view of the great and lamented judge who delivered it, these provisions stood in the same category as those relating to the forms of contracts and those governing transactions between an insurance company and its agents. It is not necessary, however, to consider whether this point is strictly ruled by Lord Dunedin's judgment in the sense that these particular provisions were passed upon. The principle of exclusive provincial control of the business of insurance within the province lies at the foundation of the judgment.

From this, it follows also that the corresponding enactments in The Foreign Companies Act are not *intra vires*. Those enactments, being legislation in relation to the business of insurance within the province, are not (it flows from the reasoning of that judgment) alien legislation in the sense contemplated by the judgment in the Attorney-General for Canada v. Attorney-General for Alberta, 1916 (1) A.C., p. 588. On this point I think the words of Lord Dunedin at p. 51 of the report in 1932 A.C. are conclusive:

"What has got to be considered is whether this is in a true sense of the word alien legislation, and that is what Lord Haldane meant by 'properly framed legislation.' Their Lordships have no doubt that the Dominion Parliament might pass an Act forbidding aliens to enter Canada or forbidding them so to enter to engage in any business without a license, and further they might furnish rules for their conduct while in Canada, requiring them, e.g., to report at stated intervals. But the sections here are not of that sort: they do not deal with the position of an alien as such; but under the guise of legislation as to aliens they seek to intermeddle with the conduct of insurance business, a business which by the first branch of the 1916 case has been declared to be exclusively subject to provincial law. Their Lordships have, therefore, no hesitation declaring that this is not 'properly framed' alien legislation."

The case of extra-Canadian exchanges is not distinguishable. It follows that section 16 is *ultra vires*.

It is perhaps unnecessary to add that nothing I have said is in any way inconsistent with the principle which precludes a province from impairing by legislation the status and powers of a Dominion company.

The interrogatory referred to us should be answered, "Yes, in its entirety."

LEE ET AL V. GRENVILLE PATRON MUTUAL FIRE INSURANCE COMPANY

ONTARIO HIGH COURT

Heard February 12, 1942. Trial at Brockville.

COPY OF REASONS FOR JUDGMENT OF HOPE, J., DELIVERED FEBRUARY 24, 1942

C. G. MACODRUM, for the Plaintiffs.

W. F. NICKLE, K.C., and H. BEAUMONT, for the Defendants.

The plaintiffs, a farmer and wife, became insured in the defendant Mutual Fire Insurance Company by policy of insurance No. 60500, dated the 1st day of June, 1938, for the sum of \$5,500. The policy read in part as follows:

"In consideration of a premium note of \$165.00 does insure Mr. and Mrs. W. J. Lee of the Township of Elizabethtown in the County of Leeds, Province of Ontario (hereinafter called the insured) according to and subject to the provisions of the laws having reference to Mutual Fire Insurance Corporations in the said Province. . . ."

A cash payment divided into three instalments of \$19.25 each, payable on the date of the insurance, and the first and second year thereafter, was required of the insured.

The interim receipt issued in the name of the insured, acknowledged receipt of the premium note for \$165.00 and the first instalment of \$19.25 for insurance upon the property described in the application for three years from the 1st of April, 1938, "upon the understanding that it is insured till notified to the contrary."

The second and third instalments of the cash payment which fell due on the 1st of April, 1939 and 1940, were not paid, and although the plaintiffs stated that they had received no notice of non-payment, I am satisfied from the evidence of the Secretary and Office Stenographer of the defendant Company, and from the records produced by them, that an instalment notice was mailed to the insured in compliance with section 118 of The Insurance Act, R.S.O. 1937, c. 256, and that a second and final notice of both of the said instalments were also mailed to the insured in accordance therewith.

On the first of these instalment notices there was printed in clear type a reproduction of The Insurance Act, R.S.O. 1937, c. 256, section 117 (1), and on each of the second and final notices mailed to the insured there was printed in bold type, with special attention drawn to it, a reproduction of the said section 117 (1) and (2).

I find that the notices so mailed to the insured in all other respects complied with the provisions of sections 117 and 118 of The Insurance Act.

On January 28, 1941, the dwelling house, which was insured under the said policy for the sum of \$1,500, and a large part of the contents thereof, insured for \$500, were destroyed by fire. The proof of claim was duly submitted and the regularity thereof and the amount of loss are now admitted. The defendant, however, disputes payment of the claim on the ground that by reason of the non-payment of the second and third cash instalments, and the notices sent out in connection therewith to the insured, the contract of insurance was null and void. There was no suggestion on the part of the plaintiffs that there had been any other determination of the matter by the directors of the defendant Company, to relieve against the forfeiture of the insurance under the terms of section 117, except that there having been a notice of default sent out voiding the policy for non-payment of the second instalment and furthermore that in January, 1941, the defendant Company mailed to the insured a copy of the annual report of the defendant Company for the year ending December 31, 1940, pursuant to section 263, subsection 3, of The Companies Act, R.S.O. 1937, c. 251. This report was received by the plaintiffs two days after the fire, and was produced in Court as an exhibit, although the plaintiffs deny having ever received any one of the four notices with reference to the overdue instalments.

The plaintiffs further submit that the payment of the second and third instalments was secured by their premium note, which was not surrendered to them until the expiration of the three-year term of the policy on April 1, 1941.

There are, therefore, only the two aspects of the case to consider: Firstly, whether or not the premium note, having been retained by the Company, can be considered as payment of the second and third instalments, despite the default in paying such instalments and the notices of default sent to the insured.

In *Pickles v. China Mutual Insurance Company*, 47 S.C.R. 429 at 438, Duff, J., states, in a case of a Mutual Fire Insurance Company:

"By virtue of the contract of insurance the insured stands in a two-fold relation to the Company and the other policyholders. To the extent of his own policy he is insured: To the extent of his own premium note he is an insurer in the sense that he is the holder of unpaid capital in respect of which he is entitled to share in the profits of the Company and to the extent of that capital he is liable to discharge the obligation."

This case was dealing with a Massachusetts company, and Massachusetts law was there applied, but I am of the opinion that the same law is applicable here, by virtue of The Companies Act, R.S.O. 1937, c. 251, section 257, which reads:

"(1) Any person insured under a policy issued by a corporation shall, from the date upon which the insurance becomes effective, be deemed a member of such corporation.

"(2) No member shall be liable in respect of any loss of claim or demand against the corporation beyond the amount unpaid upon his premium note.

"(3) Any member may, with the consent of the directors, withdraw from the corporation upon such terms as the directors may lawfully prescribe . . ."

Therefore, unless the plaintiffs, as members of the defendant Company, withdrew with the consent of the directors, which is in no way suggested in the evidence or argument, then they continue as members for the period of the contract, viz. the three years, even though, during that three years, the plaintiffs for other reasons may have forfeited the benefits which they held as insureds.

This is further borne out by the terms of section 116 (1) of The Insurance Act, which reads in part as follows:

“ . . . the premium note residue shall be subject to assessments by the directors . . . ; in such sums and at such times as they may determine for reserve and for losses and expenses incurred during the currency of the policies for which such notes were given.”

This section would appear clearly to contemplate the continuance of liability under a note to cover losses, etc., incurred during the currency of, not the policy for which the note was given, but the policies for which such notes were given; thus referring surely to the currency of a group of policies for a concurrent term. I must consider that the liability as an insurer to the extent of the premium note, or the residue of it, continues for the period of the contract, and forty days thereafter as set out in section 119 of The Insurance Act.

Therefore, I am of the opinion that, aside from any liability to the plaintiffs as insured, the defendant is entitled to retain the premium note for the term mentioned, as in the nature of a stock subscription from a member of the corporation.

The second point in question is whether or not the non-payment of the second and third instalments, and the default notices sent to the plaintiffs, constituted a cancellation of the liability of the defendant to the plaintiffs as insureds. Forfeitures are not ordinarily favoured by law, unless provided for in reasonably plain words, and in this regard I have read, with considerable interest, the judgments in *Woolley v. Victoria Mutual Fire Insurance Company*, 1899, 26 O.A.R. 321, which is a case on almost all fours with the present, except as to the nature of the notice which was sent out, and except as to the statutory provision covering forfeiture. The predecessor of present section 117 was then to be found in very much different form in section 129 of The Insurance Act, R.S.O. 1897, c. 203, which read in part in these words:

“Provided that non-payment of any of the fixed payments subsequent to the first shall *not* forfeit the insurance *unless* thirty days' notice of the fixed payment due or to become due has been mailed to the person by whom the fixed payment is payable, directed to his post office address as given in his original application or otherwise in writing to the Company.”

Meredith, J., at page 324, stated that the draftsmen of this clause appeared to have in mind that instead of creating a forfeiture that the intention was and the fair meaning of the words is to prevent a forfeiture without notice.

The effect of the interpretation of this section by the judgment of Meredith, J., apparently resulted in a legislative amendment in 1900, 63 Victoria, c. 17, sec. 26, when that portion of section 129 hereinbefore quoted was amended by striking out the word “not” underlined in the extract above, and changing the word “unless” similarly underlined above to the word “if.”

The provision of this early section then passes through various legislative amendments, viz., (1912) 2 George V., c. 33, sec. 141, (4) to (1914) R.S.O. c. 183, sections 142, 143 and 146, to (1924) 14 George V., c. 50, sec. 102—this in its present form to (1927) R.S.O., c. 222, sec. 108, and thence to the present section 117.

I do not find the cases cited to me by the plaintiff's counsel as applicable hereto, and I must conclude that the actions of the Company in cancelling their liability to the plaintiffs as insured have been in accordance with statutory requirements and that default having been so made by the plaintiffs, that the contract of insurance is null and void.

It might also be noted here that section 117 has not the effect of terminating the contract so far as the plaintiffs are concerned as members of the Company, and thus insurers to the extent of their premium note, and for the purpose of receiving notices of annual meetings and annual statements, but section 117 does clearly and explicitly render the contract of insurance null and void only as to claims for loss occurring during the time of default.

I must, therefore, direct that judgment be entered dismissing the action with costs, if demanded by the defendant.

DEPARTMENT OF INSURANCE

TO THE HONOURABLE GORDON D. CONANT, K.C., M.P.P.,

Minister in charge of the Department of Insurance.

Sir:

I have the honour to submit herewith, as required by The Loan and Trust Corporations Act, the Forty-fifth Annual Report of the Registrar of Loan Corporations. It shows the particulars of the business of each registered loan corporation, loaning land corporation, and trust company doing business in Ontario during 1941, as ascertained from its annual and other returns and from the inspection and enquiries made by the Chief Inspector and his staff. Detailed statements of the individual corporations are grouped herein in accordance with these three classifications recognized by the Act and are further arranged in alphabetical order. In addition, statistical tables, tabulated summaries and comparative statements are included as shown in the Table of Contents.

The annual returns of the corporations covering their 1941 business were filed with the Department at the end of February, 1942. Upon filing, each return was carefully checked and a preliminary Abstract of this Report showing assets, liabilities, revenue accounts, profit and loss accounts and mortgage summaries was prepared and issued under date of April 15th, 1942. The remaining months of the year were required to complete the annual inspection of the corporations, more particularly described later in this Report, and to determine exactly what changes and what miscellaneous notes, if any, should be made in the individual statements of the corporations as a result of such inspections. The publication of the Report at an earlier date is not feasible without a substantially augmented inspection staff.

REVIEW OF 1941 BUSINESS

Introduction:

The Statistical Tables included at the end of this Report have been used for comparative purposes in preparing the following review of 1941 business.

Loan Corporations:

Total assets of Loan Corporations have decreased over \$2,000,000 during 1941 from a total of \$199,950,930 to \$197,905,190. This decrease is due to a reduction in the Debentures and Debenture Stock outstanding of \$2,663,000, of which \$1,900,000 is a reduction in the amount of Debentures payable outside of Canada. These Debentures payable outside Canada have shown a steady decrease of some \$2,000,000 a year

since the start of the war and now amount to \$20,700,000 as compared with \$26,200,000 at the end of 1938.

The reduction in the Debentures outstanding has been partly offset by an increase of \$500,000 in deposits from \$34,200,000 to \$34,700,000. In 1938, these Deposits totalled \$33,500,000 and in 1939, \$35,400,000, and have not as yet been seriously effected by wartime financing.

The decrease in total assets of Loan Corporations is mainly reflected in a decrease in real estate and mortgages, partly offset by an increase in cash and bonds held. Real estate held by these companies decreased \$1,031,000 to a total of \$10,989,000 and 1941 is the first year that this item has shown a decrease since 1930. Mortgages show a decrease of \$4,220,000 of which nearly \$2,000,000 represents a decrease in mortgages in Western provinces. Cash on hand and in banks has increased \$1,295,000 while holdings of government and other bonds are up \$1,870,000, all of which is an indication of the increasingly liquid position being maintained by these companies.

Trust Companies:

Total assets of Trust Companies (exclusive of those held for estates, trusts and agencies) have increased by \$5,085,000 to a total of \$199,822,000. Company fund assets of \$61,233,000 show an increase of \$2,340,000 largely accounted for by an increase in borrowed money by one of the larger trust companies. Guaranteed fund assets now totalling \$138,588,000 have increased \$2,745,000 due to an increase in Guaranteed Investment Receipts of \$938,000 and in Trust Deposits of \$1,861,000. These Deposits now total \$58,978,000 and with the exception of 1939 when they were \$59,794,000 are at the highest level in the history of these companies. Total Deposits of both Loan and Trust Corporations now are \$93,680,000 which is almost as great as the total as at March 31st, 1941, before the issue of the War Loan in that year and compares with the all time high of \$95,200,000 in December, 1939. Heavy withdrawals for the 1942 War Loan together with income tax payments have reduced the amount of these deposits as at March 31st, 1942, by \$9,340,000 to a total of \$84,340,000, but should the trend of 1940 and 1941 be repeated it is probable that these savings deposits will be replenished before the next government War Loan is issued.

Cash held by Trust Companies has increased during 1941 by \$4,650,000 while Dominion Government and Provincial Bonds have increased by \$7,204,000, a total increase in liquid assets of \$11,854,000. Although an unusual amount of cash was held by these companies at the end of 1941, no doubt in anticipation of heavy withdrawals early in 1942 for War Loan and other purposes, the general situation is one of an increasingly liquid position for these companies as the war progresses. A continuance of this trend, a healthy trend in such times as these, is probably inevitable if repayments on mortgages continue to improve as the scope for new mortgage investment shrinks and the recurring Dominion Government War Loans become the main outlet for surplus funds of these companies.

Estates, Trusts and Agencies:

Total assets under administration in this section have increased during the year by \$9,700,000 to a figure of \$2,448,877,000.

Office Premises:

The total investment in office premises for Loan and Trust Corporations amounts to \$11,710,000, a reduction of \$280,000 during the year due to the customary annual write-downs.

Real Estate Held For Sale:

In my report for last year I pointed out that the companies had not been able to achieve the desirable objective of reducing their Real Estate holdings. This year there has been an increased demand for Real Estate properties, particularly for smaller residential properties in urban areas and for the first time since 1929 the amount of Real Estate held by Loan and Trust Corporations shows a decrease. This decrease amounts to the substantial sum of \$2,063,000 from a total of \$21,431,000 in 1940 to \$19,368,000 in 1941. Practically every company shows a decrease in their Real Estate holdings this year and it is anticipated that further reductions will be accomplished in 1942. Holdings of Loan Corporations now represent 5.5% of total assets as compared with 6.01% in 1940, 5.78% in 1939 and 1.5% in 1926. Trust Company holdings are 13.7% of total company funds as against 15.9% in 1940; 15.08% in 1939 and 3.67% in 1926.

During 1941 Loan and Trust Corporations sold 2,222 real estate properties for an aggregate sales price of \$8,265,422 and received as cash payments on such sales over \$1,600,000. These figures compare with 1,531 properties sold in 1940 for \$5,174,000 with cash payments of \$1,032,000, and represent an increase over 1940 of nearly 50% in number and over 50% in value of properties sold. The average sales price per property in 1940 was \$3,380 and in 1941 was \$3,720, indicating that the great bulk of the turnover was in small inexpensive properties, but the general experience has been that the market has widened somewhat in 1941 and that prices received are somewhat better than in 1940, although the percentage of cash payments received remains about the same. Advance reports for 1942 seem to indicate that demand for urban real estate continues to grow and it is hoped that the companies will be able to make a further reduction this year in the amount of Real Estate held for sale.

Mortgage Loans:

Total mortgages of both Loan and Trust Corporations are carried at balance sheet figures of \$212,159,000, a reduction of \$7,119,000 from the total in 1940 of \$219,278,000. Increased repayments of principal as a result of the high level of employment in urban areas has contributed to this decrease as well as a growing scarcity in conservative outlets for new mortgage money on first-class security. The reduction has been proportionately the same for both Loan and Trust Companies; Loan Companies reducing their mortgages \$4,219,000 to \$134,938,000, while those of Trust Companies have been reduced \$2,900,000 from \$80,121,000 to \$77,221,000.

The summary of mortgages at the end of this Report shows a segregation of these mortgages by provinces, based on the gross book values before the deduction of special reserves for balance sheet purposes. The total value of mortgages for both Loan and Trust Companies shown in this summary is \$224,337,000, which is some \$12,000,000 greater than the amount at which they are carried in the companies' balance sheets, and consists of \$147,236,000 in mortgages in Eastern provinces and \$77,101,000 in

Western mortgages. The amount of Western mortgages held by Loan and Trust Corporations has been steadily decreasing in recent years being \$80 millions in 1940 and \$85 millions in 1938.

Collateral Loans:

The total of these loans for both Loan and Trust Corporations has declined consistently in recent years as a result of the lessened activity and interest in the securities market. The total this year is \$15,182,000 as compared with \$17,123,000 in 1940 and \$30,590,000 in 1937.

Bonds and Debentures:

Bonds and Debentures held by Loan Corporations total \$24,969,000 and by Trust Companies \$70,688,000, a total for both Loan and Trust Corporations of \$95,657,000, which represents an increase in the year of \$9,217,000. This increase mainly occurred in Government and Government Guaranteed Bonds that increased \$8,507,000, of which \$1,300,000 was an increase in the holdings of Loan Corporations.

This year Dominion of Canada bonds are classified separately from Provincial bonds and include both direct and guaranteed obligations. The amount of Dominion bonds held by loan companies is \$12,817,000 and by trust companies \$28,832,000, a total for both classes of companies of \$41,649,000.

Stocks:

The holdings of stocks by Loan Corporations increased \$203,000 in 1941 to a total of \$10,477,000, while Trust Company holdings at \$6,499,000 show a decrease of \$745,000.

Cash:

Cash held by Loan Corporations increased \$1,295,000 to \$9,113,000 in 1941, while total cash held by Trust Companies increased \$4,650,000 to a total of \$13,290,000. By March 31st, 1942, these large cash balances had been considerably reduced by withdrawals for War Loan and other purchases.

Earnings:

Net profits of Loan Corporations (excluding transfers to and from investment reserves) amounted to \$2,824,000 as compared with \$2,755,000 in 1940. Trust Companies' net profits on the same basis were \$2,172,000 as compared with \$2,564,000 last year. In 1941 Dominion taxes increased \$343,000 over 1940 for Loan Corporations and \$315,000 for Trust Companies.

The net amount transferred to investment reserves that has been eliminated from the above figures is \$727,000 for Loan Corporations and \$233,000 for Trust Companies, which compares with \$838,000 and \$531,000, respectively, in 1940.

Dividends:

Dividends declared by Loan Corporations in 1941 amounted to \$2,010,000 and by Trust Companies to \$1,697,000, as compared with \$2,023,000 and \$1,805,000, respectively, in 1940.

Liquid Position.

The percentage of liquid securities held by Loan and Trust Companies that accept deposits to the amount of deposits was 74.24% on December 31st, 1941, as compared with 69.71% in 1940, 67.35% in 1939 and 65.02% in 1938. In spite of heavy withdrawals during the first three months of 1942 mainly for War Loan purposes, the percentage was maintained at 72.63% as at March 31st, 1942.

All of which is respectfully submitted.

CONSTATING INSTRUMENTS

This corporation was incorporated under Special Act of the Dominion of Canada, 62-63 Victoria (1899), c. 101, under the name of "The Canada Permanent and Western Canada Mortgage Corporation," for the purpose of acquiring the assets and business of the Canada Permanent Loan and Savings Company, the Western Canada Loan and Savings Company, the Freehold Loan and Savings Company, and The London and Ontario Investment Company, Limited, which several purchases were confirmed by Special Act of Ontario 63 Victoria, 1900, c. 129. The name was changed to the "Canada Permanent Mortgage Corporation" by 3 Edward VII (1903), c. 94 (D), which Act also amended its lending powers. By 3-4 George V (1913), c. 86 (D), further amendments were made to the Incorporating Act.

Of the constituent companies, the Canada Permanent Loan and Savings Company was incorporated by declaration filed under The Building Societies Act (Cons. Stat. U.C., c. 53) in 1855, under the name of the Canada Permanent Building and Savings Society, which name was changed to the Canada Permanent Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 100.

CANADA PERMANENT MORTGAGE CORPORATION—Continued

The Western Canada Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1863, under the name of the Western Canada Permanent Building and Savings Society, and its name was changed to the Western Canada Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 79.

The Freehold Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1859 under the name of The Freehold Permanent Building and Savings Society; the name being changed to The Freehold Loan and Savings Company by 36 Victoria (Ontario), (1873), c. 104.

The London and Ontario Investment Company was incorporated by the Act of Ontario 39 Victoria, 1876, c. 62.

In 1918 the corporation purchased the assets and business of The Oxford Permanent Loan and Savings Society, which purchase was ratified by Order-in-Council of Ontario, dated July 31st, 1918, pursuant to The Loan and Trust Corporations Act.

In 1921, the corporation also purchased the assets and business of The London and Canadian Loan and Agency Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated September 23rd, 1921, pursuant to The Loan and Trust Corporations Act.

In 1927, the corporation purchased the assets and business of The Royal Loan and Savings Company, which purchase was ratified by Order-in-Council of Ontario, dated March 4th, 1927, pursuant to The Loan and Trust Corporations Act.

In 1927 the corporation purchased the assets and business of The British Columbia Permanent Loan Company, Vancouver, B.C.

In 1927 the corporation also purchased the assets and business of The Canada Landed and National Investment Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated December 30th, 1927, pursuant to The Loan and Trust Corporations Act.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, Consolidated Statutes of Upper Canada, c. 53, by declaration filed in the office of the Clerk of the Peace for the County of Middlesex, 26th September, 1870. The original corporate name was The Ontario Savings and Investment Society.

By Order-in-Council of Ontario, dated 4th October, 1879, and also by Order-in-Council of Canada, dated 29th October, 1879, the corporate name was changed to The Ontario Loan and Debenture Company.

The Company as now constituted was formed under the provisions of The Loan Corporations Act of Ontario by The Ontario Loan and Debenture Company, taking in by amalgamation the Agricultural Savings and Loan Company under Order-in-Council dated 10th November, 1911, and operates under The Loan and Trust Corporations Act, R.S.O. 1937, chapter 257.

By Order-in-Council of Ontario, dated 12th March, 1930, 20,000 shares twenty per cent. called and paid were converted into 4,000 shares fully paid, the authorized capital thereby being reduced from 100,000 to 84,000 shares.

CONSTATING INSTRUMENTS

The British Mortgage Loan Company of Ontario was incorporated by Letters Patent of Ontario, dated October 5th, 1877 (Lib. 5, No. 52), issued under R.S.O. 1877, c. 150, which Act was continued by R.S.O. 1887, c. 157, and was as to Loan Corporations superseded by 60 Vic., c. 38 (O), now R.S.O. 1937, c. 257.

By 16 George V, c. 121, the Company was given trust company powers and its name changed to The British Mortgage and Trust Corporation of Ontario.

The lending and the borrowing powers of the Company are derived from its Letters Patent and the above public general statute.

CONSTATING INSTRUMENTS

Incorporated by declaration filed May 11th, 1885, with the Clerk of the Peace for the United Counties of Leeds and Grenville. The declaration was made by virtue of "The Building Societies Act," R.S.O. 1877, c. 164, continued by R.S.O. 1887, c. 169, and superseded by 60 Vic., c. 38 (O), now R.S.O. 1897, c. 205. See R.S.O. 1937, c. 257.

The lending and borrowing powers are derived from the above public General Acts.

By a Special Act of the Legislature of Ontario, 19 Geo. V, c. 130, the Company was granted the powers of a trust company and its authorized capital stock was increased from \$500,000 to \$1,000,000. Its name was changed to The Brockville Trust and Savings Company.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, R.S.O. 1887, c. 169, by declaration filed with the Clerk of the Peace for the County of Lambton, 20th August, 1889.

By Order-in-Council approved March 6th, 1907, pursuant to the provisions of Section 4 (6), cap. 27, 63 Victoria, the authorized capital stock of the Company was increased from \$500,000.00 to \$1,000,000.00.

By 18 George V, Chapter 112, the Company was given Trust Company powers and its name changed to The Industrial Mortgage and Trust Company.

By 24 George V, Chapter 79, the Company assumed the liabilities and purchased under agreement the business, assets, etc., of The East Lambton Farmers' Loan and Savings Company.

The lending and borrowing powers are governed by The Loan and Trust Corporations Act R.S.O. 1937, c. 257.

By Order-in-Council approved 22nd April, 1936, the Lieutenant Governor assented to The Industrial Mortgage and Trust Company assuming the liabilities and purchase under agreement dated 24th December, 1935, of the business, assets, etc., of The Crown Savings and Loan Company.

CONSTATING INSTRUMENTS

Incorporated on the 17th September, 1896, by Letters Patent of Ontario, issued under The Ontario Joint Stock Companies' Letters Patent Act, R.S.O. 1887, Chap. 157. See also The Loan and Trust Corporations Act, R.S.O. 1937, Chap. 257.

February 18th, 1929—Order-in-Council confirming By-law No. 14 of the Corporation to increase the capital stock from \$500,000.00 to \$1,000,000.00.

August 21st, 1929—Order-in-Council confirming By-law No. 18 of the Corporation to increase the capital stock from \$1,000,000.00 to \$5,000,000.00.

On the 10th day of September, 1929, His Honour the Lieutenant-Governor approved by Order-in-Council the removal of the Head Office of The London and Western Trusts Company, Limited, from the City of London to the City of Toronto.

By an agreement, dated the 15th day of October, 1929, The London and Western Trusts Company, Limited, of London, Ontario, purchased the assets and liabilities, business, rights, property and goodwill, etc., of The Standard Trusts Company with Head Office in Toronto, Ontario. The agreement was ratified and confirmed by the shareholders of both companies and was subsequently approved by the Lieutenant-Governor in Council. The transfer became effective on the 18th day of December, 1929. The Standard Trusts Company had, by authority of By-law No. 35, moved its Head Office from Winnipeg to Toronto, and was granted registry in Ontario under date of October 26th, 1929.

June 28th, 1932—Order-in-Council assenting to the conversion of partly-paid shares into fully paid shares equivalent to the amount paid in on account of subscriptions not including premiums.

CONSTATING INSTRUMENTS

The Prudential Trust Company, Limited, was incorporated in 1909 by a Special Act of the Parliament of the Dominion of Canada, 8-9 Edward VII, Chapter 124.

Authorized in 1911 by Special Act of the Legislature, 1 Geo. V, Chapter 139, to transact business in the Province of Ontario as specified in Section 1 (5) of the said Act, which enacts as follows:

"(5) The Company shall be limited in respect of all business relating to property, rights or interests in the Province of Ontario, to the powers mentioned in this Act or granted from time to time to trust companies by any Public Act or Order of the Lieutenant-Governor in Council of the said Province and shall be subject to the general public law of the said Province relating to trust companies and trusts."

In 1922, by Chap. 71, George V, 12-13, the authorized capital was increased from \$1,500,000 to \$2,000,000 representing 20,000 shares of par value \$100.

In 1930, by Chap. 70, George V, 20-21, the capital structure was altered to represent 100,000 shares of stock with a par value of \$20 a share.

In 1934 by Bill No. 11, 5th Session, 17th Parliament 24, George V, the par value of the shares was reduced from \$20 to \$10.

Under the provisions of 1 Geo. V, c. 139, as amended by 10 Geo. V, c. 158, the deposit as security to do business in Ontario may be fixed from time to time by the Lieutenant-Governor in Council. By Order-in-Council, dated June 15th, 1920, the Company's deposit of \$200,000 was reduced to \$50,000.00. By Order-in-Council, dated July 4th, 1933, the deposit required was further reduced to \$30,000.00.

The Company has a deposit in the Province of Ontario amounting to \$30,000.00.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, 1887, c. 169, as amended by 56 Vic., c. 31 (O), by declaration filed with the Clerk of the Peace for the County of Victoria, on the 4th September, 1897.

The operations of the Company were for a time by law restricted to the County of Victoria (56 Vic., c. 31), continued by R.S.O. 1897, c. 205, s. 8 (4); but the Company, having fulfilled the statutory requirements, was by Letters Patent of Ontario, bearing date 11th November, 1898, relieved from the above restriction of its operations.

By a special Act of the Legislature of Ontario, 13 Geo. V, c. 107, the Company was granted the powers of a trust company and the name was changed to The Victoria Trust and Savings Company. (See also The Loan and Trust Corporations Act, R.S.O., 1937, chap. 257).
